Red Sun Sep 20 2022 Spread over fifteen of the country's twenty-eight states, India's Maoist movement is now one of the world's biggest and most sophisticated extreme-left movements. Hardly a week passes without people dying in strikes and counter-strikes by the Maoists—interchangeably known as the Naxalites—and the police and paramilitary forces. In this brilliant and sobering examination of the 'Other India', Sudeep

Chakravarti combines reportage, political analysis and individual case histories as he takes us to the heart of Maoist zones in the country—areas of extreme destitution, bad governance and perpetual war.

Tales from Ovid Dec 31 2020 When Michael Hofmann and James Lasdun's ground-breaking anthology *After Ovid* (also Faber) was published in 1995, Hughes's three contributions to the collective effort were nominated by most critics as outstanding. He had shown that rare translator's gift for providing not just an accurate account of the original, but one so thoroughly imbued with his own qualities

that it was as if Latin and English poet were somehow the same person. Tales from Ovid, which went on to win the Whitbread Prize for Poetry, continued the project of recreation with 24 passages, including the stories of Phaeton, Actaeon, Echo and Narcissus, Procne, Midas and Pyramus and Thisbe. In them, Hughes's supreme narrative and poetic skills combine to produce a book that stands, alongside his *Crow* and *Gaudete*, as an inspired addition to the myth-making of our time.

Kept in the Dark Dec 11 2021 This fascinating historical revelation goes to the very heart of British and Allied

Intelligence during World War II, specifically in the context of planning, control and implementation of the combined bomber offensive against Germany. There are sound arguments based on official archives that the handling of much air intelligence was faulty and reasons to believe that some departments within Whitehall were influenced by parochial and personal attitudes that interfered with the selection of strategic targets and the planning of the bombing offensives. In some departments within Whitehall and even the Air Ministry, there was a culpable failure to understand and appreciate the

operational capabilities and limitations of the RAF and USAAF bomber forces. After the evacuation of the BEF the only means of destroying the Axis production of arms and munitions fell to the RAF and this was their prime objective for the rest of the war. The destruction of arms factories, power stations, air and ship production was the underlining objective, although when special targets, such as the break-outs of the German navy's major warships and U-Boats were deemed vital, the RAF were expected to react immediately. Much of Britain's intelligence was gathered from the German ENIGMA signals and became known as ULTRA

with a security classification of MOST SECRET. Apart from the brilliant work at Bletchley Park there were other inputs from partisans throughout occupied Europe, Allied agents and various forms of reconnaissance. It was a new type of warfare that developed and improved as the war progressed but all too often the bomber squadrons were put into unnecessary peril through imprecise and unthinking demands from the highest levels of government. Originally its own text, based on even older sources not yet fully documented, this text is commonly wrapped up into the Lesser Keys of Solomon along with such works as the Ars Goetia- some editions of the latter omit this work. Schubert's Winterreise Jun 05 2021 This book/CD package guides readers and listeners on a journey through Franz Schubert's Winterreise song cycle, in which the composer set the poetry of Wilhelm Muller to music. The complete text of the 24 poems is presented in both German and English, with 116 b&w photographs of winter scenes on the facing pages. An introductory essay by Susan Youens (musicology, U. of Notre Dame) offers a critical examination of the song cycle. The music CD features a new recording of Winterreise, performed by baritone Paul

Rowe and pianist Martha Fischer. Oversize: 10.25x10.25". Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com). **The China Dream** Mar 02 2021 "An entertaining, if cautionary, tale of Western business woes in China, stretching back seven hundred years" (The Wall Street Journal). In *The China Dream*, acclaimed business journalist Joe Studwell challenges the predictions that China will become an economic juggernaut on the world stage in the twenty-first century—and instead foresees an economic crisis. Tracing the most recent developments in China from Deng Xiaoping's

"liberalization" of its market in the 1980s through the opening of its economy to foreign investment in the 1990s, Studwell examines the roadblocks to the continuation of the country's unprecedented expansion and why its economy will fail once more—but this time, harder than ever before, and with potentially catastrophic results. Provocative and flawlessly researched, *The China Dream* analyzes what's really going on in China—and what we can do to prepare for the coming crisis. "The much-needed antidote to the delusions . . . about the riches to be made from investing and selling in China. Brimming with . . .

statistics." —The Washington Post "[A] detailed account . . . An excellent examination of the political and economic history of China, fascinating and mostly unknown to Westerners." —Booklist (starred review) "Lays bare much of the stuff and nonsense that surrounds the China dream, and traces how myth and misunderstandings—compound ed by hype and lashings of snake oil—have bewitched some of the world's most respected corporations and led them to ruin the proverbial \$1.3 billion consumer market . . . As such, it deserves to help redefine the debate on the nature of the China market."

Galen: On the Properties of Foodstuffs Aug 27 2020 This book presents a translation of

and detailed commentary on Galen's *De alimentorum facultatibus* - his major work on the dynamics and kinetics of various foods. It is thus primarily a physiological treatise rather than a *materia medica* or a work on pathology. Galen commences with a short section on the epistemology of medicine, with a discussion on the attainment, through *apodeixis* or demonstration, of scientific truth - a discussion which reveals the Aristotelian roots of his thinking. The text then covers a wide range of foods, both common and exotic. Some, such as cereals, legumes, dairy products and the grape, receive an emphasis that reflects their importance

at the time; others are treated more cursorily. Dr Powell, an expert in gastroenterology, discusses Galen's terminology and the background to his views on physiology and pathology in his introduction, while John Wilkins' foreword concentrates on the structural and cultural aspects of the work.

My Life in Christ Apr 22 2020 THIS is the story of my life in Christ. Now, what does living

in Christ mean? It means that one is FOR Christ, that one not only accepts Him, but that one lives in Him. Living in Christ has little relationship to the more commonly accepted situation of living as a Christian, or living a Christian life. Living AS a Christian means that one has accepted the tokens of Christianity, that one agrees in the divinity of Christ, that one is a member of a Christian congregation, in a largely Christian community, in a Christian nation. Thus, one can lead a Christian life without knowing Christ and without changing one's existence in the slightest degree. If a person leads a Christian life, and it does not

transform one's existence, then one can be sure that he does not KNOW Christ. Knowing Christ is the only manner in which one can go beyond oneself, and the only manner in which one can go beyond one's world. In knowing Christ, one is immediately lifted out of the mechanical life of the human existence, one transcends the common existence. One is no longer a human machine, leading a hopeless, mechanical life, repeating the same meaningless motions like a robot throughout the years of one's earthly existence. What was Christ's ad-monition? "Take up the Cross, and follow Me." But, in explication of this admonition, the New

Testament contains many significant references to the condition of sleep, and Christ's exhortations to mankind to awaken. Now, what does this mean? It means that Christ did not wish to be followed by robots and sleepwalkers, He desired man to awaken, and to attain the full use of his earthly powers. Not only are mechanical men of no use to Christ, but they are quite dangerous, they present endless difficulties in the establishment of Christ's Kingdom on earth.

Patton Sep 27 2020 The Book that Inspired the Academy Award-Winning Film "The best Patton biography."--Military Bookman He is America's most famous general. He represents toughness, focus, determination, and the ideal of achievement in the face of overwhelming odds. He was

the most feared and respected adversary to his enemies and an object of envy, admiration, and sometimes, scorn to his professional peers. An early proponent of tank warfare, George S. Patton moved from being a foresighted lieutenant in the First World War to commanding the Third Army in the next, leading armored divisions in the Allied offensive that broke the back of Nazi Germany. Patton was an enigmatic figure. His image among his troops and much of the press achieved legendary status through his bold and colorful comments and combat leadership, yet these same qualities nearly jeopardized his career and forced him out of

the battle on several occasions. Victory was impossible without Patton, and returning to the field, his army was responsible for one of the most crushing advances in the history of warfare. In Ladislav Farago's masterpiece, *Patton: Ordeal and Triumph*, the complete story of this fascinating personality is revealed. Born into an aristocratic California family, Patton rose in military rank quickly and was tapped to lead the Allied landings in North Africa in 1942. Under Patton's direction, American troops cut their teeth against Rommel's Afrika Korps, advanced further and more quickly than British General Montgomery's army in the

conquest of Sicily, and ultimately continued their exploits by punching into Germany and checking the Russian westward advance at the end of World War II. A sweeping, absorbing biography and critically hailed, *Patton: Ordeal and Triumph* provides unique insights into Patton's life and leadership style and is military history at its finest. *The Wisdom of India* May 24 2020

How Asia Works Feb 25 2023
“A good read for anyone who wants to understand what actually determines whether a developing economy will succeed” (Bill Gates, “Top 5 Books of the Year”). An Economist Best Book of the

Year from a reporter who has spent two decades in the region, and who The Financial Times said “should be named chief myth-buster for Asian business.” In *How Asia Works*, Joe Studwell distills his extensive research into the economies of nine countries—Japan, South Korea, Taiwan, Indonesia, Malaysia, Thailand, the Philippines, Vietnam, and China—into an accessible, readable narrative that debunks Western misconceptions, shows what really happened in Asia and why, and for once makes clear why some countries have boomed while others have languished. Studwell’s in-depth analysis focuses on three main

areas: land policy, manufacturing, and finance. Land reform has been essential to the success of Asian economies, giving a kick-start to development by utilizing a large workforce and providing capital for growth. With manufacturing, industrial development alone is not sufficient, Studwell argues. Instead, countries need “export discipline,” a government that forces companies to compete on the global scale. And in finance, effective regulation is essential for fostering, and sustaining growth. To explore all of these subjects, Studwell journeys far and wide, drawing on fascinating examples from a Philippine sugar baron’s

stifling of reform to the explosive growth at a Korean steel mill. “Provocative . . . *How Asia Works* is a striking and enlightening book . . . A lively mix of scholarship, reporting and polemic.” —The Economist

Why Mahler? Nov 10 2021 Why Mahler? Why does his music affect us in the way it does? Norman Lebrecht, one of the world's most widely read cultural commentators, has been wrestling obsessively with Mahler for half his life. Following Mahler's every footstep from birthplace to grave, scrutinizing his manuscripts, talking to those who knew him, Lebrecht constructs a compelling new portrait of Mahler as a man who lived determinedly outside

his own times. Mahler was—along with Picasso, Einstein, Freud, Kafka, and Joyce—a maker of our modern world. Why Mahler? is a book that shows how music can change our lives.

After Ovid Jun 24 2020 "Ovid's Metamorphoses is one of the great works in classical literature, and a primary source for our knowledge of much of classic mythology, in which the relentless theme of transformation stands as a primary metaphor for the often cataclysmic dynamics of life itself. The British poets Michael Hofmann and James Lasdun have invited more than forty leading English-language poets to create their own idiomatic

contemporary versions of some of the most famous and notorious stories from the *Metamorphoses*. Apollo and Daphne, Pyramus and Thisbe, Proserpina, Marsyas, Medea, Baucis and Philemon, Orpheus and Eurydice - these and many other deathless myths are brought to startling, fresh life in exciting new versions. The contributors - among them Fleur Adcock, Amy Clampitt, Thom Gunn, Seamus Heaney, Ted Hughes, Lawrence Joseph, Kenneth Koch, Michael Longley, Paul Muldoon, Les Murray, Robert Pinsky, Frederick Seidel, Charles Simic, and C. K. Williams - constitute an impressive roster of major makers of poetry in

our language. After Ovid is thus both a powerful reenvisioning of a fundamental work of literature and a remarkable sounding of the state of poetry in English now."--BOOK JACKET. Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

40 or 50 families control the economies of Hong Kong, Singapore, Thailand, the Philippines and Indonesia. Their interests range from banking to property, from shipping to sugar, from vice to gambling. 13 of the 50 richest families in the world are in South East Asia yet they are largely unknown outside confined business circles. Often this is because they control the press and television as well as everything else. How do they do it? What are their secrets? And is it good news or bad for the places where they operate?

Joe Studwell explosively lifts the lid on a world of staggering secrecy and shows that the little most people know is almost entirely wrong.
