**Routledge Library Editions: Curriculum** Mar 30 2021 Reissuing works originally published between 1971 and 1994, this collection includes books which offer a broad spectrum of views on curriculum, both within individual schools and the wider issues around curriculum development, reform and implementation. Some cover the debate surrounding the establishment of the national curriculum in the UK while others are a more international in scope. Many of these books go beyond theory to discuss practical issues of real curriculum changes at primary or secondary level. The Set includes books on cross-curricular topics such as citizenship and environment, and also guidance,

careers, life skills and pastoral care in schools. A fantastic collection of education history with much still relevant today.

[English Language, Paper 2 \(no. 121\) Dec 27 2020](#)

[Universal Secondary Education in India Feb 26 2021](#) This book offers a cutting-edge contribution on the importance of secondary education and assesses the strengths and weaknesses of its growth in India. Secondary education, long neglected, faces countless challenges and will require tremendous financial resources, millions of additional trained teachers, and vast infrastructure in terms of buildings, laboratories, libraries, ICT facilities, etc. The book examines these critical issues, with particular reference to the situation in India. It analyses the status quo of secondary education and discusses the strategies and approaches needed in order to universalize it. Including 20 chapters authored by eminent scholars in the field and from across the country, this book gathers the outcomes of a seminar organized by the Council for Social Development on Universalization of Secondary Education. The target audience includes policymakers, practitioners, administrators, education planners, researchers, teachers, and teacher educators with an interest in the future of secondary education.

**Education in Germany** Apr 30 2021 The German education and training system has been the subject of considerable attention from other nations, and has often been used as a model. David Phillips' book brings together articles from some of the best known names in the field including Mitter, Glowka, Hearnden, Fuhr, Robinsohn and Prais and wagner. The book is organised into four sections. Section one examines the historical inheritance of the present education system. Section two covers standards and assessments and section three discusses vocational education and training, and area of the German education system which has received much admiration. Finally, and crucially, section four addresses questions about the future of the current system in a unified Germany.
