Ender's Game Gift Edition Jun 03 2021 From New York Times bestselling author Orson Scott Card, Ender's
Game—adapted to film in 2013 starring Asa Butterfield and Harrison Ford—is the classic Hugo and Nebula
award-winning science fiction novel of a young boy's recruitment into the midst of an interstellar war
to develop a secure defense against a hostile alien race's next attack, government agencies breed children
and train them as soldiers. A brilliant young boy, Andrew "Ender" Wiggin lives with his kind but distant
parents, his sadistic brother Peter, and the person he loves more than anyone else, his sister Valentine
and Valentine were candidates for the soldier-training program but didn't make the cut—young Ender
Wiggin drafted to the orbiting Battle School for rigorous military training. Ender's skills make him a leader
school and respected in the Battle Room, where children play at mock battles in zero gravity. Yet growing
an artificial community of young soldiers Ender suffers greatly from isolation, rivalry from his peers, pressure
from the adult teachers, and an unsettling fear of the alien invaders. His psychological battles include
loneliness, fear that he is becoming like the cruel brother he remembers, and fanning the flames of death
his beloved sister. Is Ender the general Earth needs? But Ender is not the only result of the genetic
experiments. The war with the Buggers has been raging for a hundred years, and the quest for the perfect
general has been underway for almost as long. Ender's two older siblings are every bit as unusual as he is
in very different ways. Between the three of them lie the abilities to remake a world. If, that is, the world
survives. Orson Scott Card's Ender's Game is the winner of the 1985 Nebula Award for Best Novel and the

Earth Awakens Oct 15 2019 The story of The First Formic War continues in Earth Awakens. Nearly 100 years
before the events of Orson Scott Card's bestselling novel Ender's Game, humans were just beginning to
Earth and out into the Solar System. A thin web of ships in both asteroid belts; a few stations; a corporate
settlement on Luna. No one had seen any sign of other space-faring races; everyone expected that First
Contact, if it came, would happen in the future, in the empty reaches between the stars. Then a young
navigator on a distant mining ship saw something moving too fast, heading directly for our sun. When the
alien ship screamed through the solar system, it disrupted communications between the far-flung human
mining ships and supply stations, and between them and Earth. So Earth and Luna were unaware that they
had been invaded until the ship pulled into Earth orbit, and began landing terra-forming crews in China
Politics and pride slowed the response on Earth, and on Luna, corporate power struggles seemed more
than distant deaths. But there are a few men and women who see that if Earth doesn't wake up and
together, the planet could be lost. THE ENDER UNIVERSE Ender series Ender's Game / Speaker for the

Jan 22 2023 Four novels in Card's series of war between humans and
aliens feature the valiant warriors Ender Wiggin, his brother Peter, and the precocious Bean.

Ender's Game Boxed Set
May 22 2020 Orson Scott Card's classic and worldwide bestselling Ender Quintaglio
series won the Hugo and Nebula awards! Included in this ebook bundle: Ender's Game, Ender in Exile, and
Speaker for the Dead Andrew "Ender" Wiggin thinks he is playing computer simulated war games, at Earth's
elite military academy, the Battle School; he is, in fact, engaged in something far more desperate. Ender
must be the military genius Earth desperately needs in a war against an inscrutable alien that seeks to destroy
human life. The only way to find out is to throw Ender into ever harsher training, to chip away and find the
diamond inside, or destroy him utterly. Ender Wiggin is six years old when it begins. He will grow up fast.

Ender's Game is an international bestseller, read and loved by generations. It has been named one of the
top ten science fiction novels of all time. Ender's story continues in Speaker for the Dead, Orson Scott Card's
award-winning sequel. Ender Wiggin has run far and fast, using the effects of near-light-speed travel to
live his past and become nearly anonymous. He is now the Speaker for the Dead, the author of The Hive
Queen and The Hegemon, and he has come to the planet Lusitania to tell the truth about a man's life
at his graveside. But Lusitania is a very special place, the first planet humans have found that harbors an intelligent
life-form, though it is very strange indeed. And Ender has more reason than any other man to seek
communication, and peace between humanity and the pequininos. Ender in Exile is the story of Ender's
voyage from Earth, and his first arrival on a former Formic colony world. In the confined world of the
colony ship, Ender's diplomatic and tactical genius are put to the test against an enemy he cannot kill.

Ender's Game novel falls immediately after Ender's Game in chronological sequence, but was written long after Children
of the Mind, and the books of the Shadow series. You can read it at any point after Ender's Game At the

First Meetings
Aug 17 2022 Welcome to the Enderverse. When "Ender's Game" was first published as a
novella twenty-five years ago few would have predicted that it would become one of the most successful
ventures in publishing history. Expanded into a novel in 1985, Ender's Game won both the Hugo Award
and the Nebula Award for Best Novel. Never out of print and translated into dozens of languages, it is the
work of fiction that can truly be said to have transcended a genre. Ender's Game and its sequels have won
dozens of prestigious awards and are as popular today among teens and young readers as adults. First
Meetings is a collection of three novellas-plus the original "Ender's Game"-that journey into the origins
and the destiny of one Ender Wiggin. "The Polish Boy" begins in the wake between the first two Bugger Wars
when the Hegemony is desperate to recruit brilliant military commanders to repel the alien invasion. In
"Teach Me to Fly" Paul Wiggin-the future father of Ender -they believe they may have found their man. Or boy. In "Teacher
Pest"-a novella written especially for this collection-a brilliant but insufferably arrogant John Paul Wiggin
now an American university student, matches wits with an equally brilliant graduate student named Tim
Brown. It is many years since the end of the Bugger Wars in "The Investment Counselor." Ender's reputation
as a hero and savior has suffered a horrible reversal. Banished from Earth and slandered as a mass murderer,
twenty-year-old Andrew Wiggin wanders incognito from planet to planet as a fugitive. Until a blackmailed
inspector compromises his identity and threatens to expose Ender the Xenocide. Also reprinted here is the
original landmark novella, "Ender's Game," which first appeared in 1977. Fully illustrated, First Meetings
is a masterpiece of Orson Scott Card writing at the height of his considerable power about his most compelling character.

Ender in Exile Oct 19 2022 After twenty-three years, Orson Scott Card returns to his acclaimed best-selling series with the first true, direct sequel to the classic *Ender's Game*. In *Ender's Game*, the world's most brilliant children were taken from their families and sent to an elite training school. At Battle School, they learned combat, strategy, and secret intelligence to fight a dangerous war on behalf of those left on Earth. But they also learned some important and less definable lessons about life. After the life-changing events of the war, these children—now teenagers—must leave the school and readapt to life in the outside world. Having never seen their families or interacted with other people for years—where do they go now? What can they do? Ender fought for humanity, but he is now reviled as a ruthless assassin. No longer allowed to live on Earth, he is sent into exile. With his sister Valentine, he chooses to leave the only home he's ever known to begin a relativistic—and revelatory—journey beyond the stars. What happened during the years between *Ender's Game* and *Speaker for the Dead*? What did Ender go through from the ages of 12 through 35? The story of those years has never been told. Taking place 3000 years before Ender finally receives his chance at redemption in *Speaker for the Dead*, this is the long-lost story of Ender. For twenty-three years, millions of readers have wondered and now they will receive the answers. *Ender in Exile* is Orson Scott Card's moving return to action and the adventure, the profound exploration of war and society, and the characters one never forgets. On one of these ships, there is a baby that just may share the same special gifts as Ender's old friend Bean. **ENDER UNIVERSE** Ender series *Ender's Game* / *Ender in Exile* / *Speaker for the Dead* / *Xenocide* / *Children of the Mind* Ender's Shadow series *Ender's Shadow* / *Shadow of the Hegemon* / *Shadow Puppets* / *Shadow of the Giant* / *Shadows in Flight* *Children of the Fleet* *The First Formic War* (with Aaron Johnston) *Earth Unaware* / *Earth Afire* / *Earth Awakens* *The Second Formic War* (with Aaron Johnston) *The Swarm* / *The Hive* Ender novellas *A War of Gifts* / *First Meetings* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Earth Unaware Jun 22 2020 A hundred years before *Ender's Game*, humans thought they were alone in

galaxy. Humanity was slowly making their way out from Earth to the planets and asteroids of the Solar System, exploring and mining and founding colonies. The mining ship El Cavador is far out from Earth, in the depths of the Kuiper Belt, beyond Pluto. Other mining ships, and the families that live on them, are few and far between this far out. So when El Cavador's telescopes pick up a fast-moving object coming in-system, they don't know what to make of it. It's massive and moving at a significant fraction of the speed of light. But El Cavador has other problems. Their systems are old and failing. The family is getting too big. There are claim-jumpers. El Cavador's corporation brings Asteroid Belt tactics to the Kuiper Belt. Worrying about a distant object that might be an alien ship seems...not important. They're wrong. It's the most important thing that has ever happened to the human race in a million years. This is humanity's first contact with an alien race. The First Formic War is about to begin. Earth Unaware is the first novel in The First Formic War series by Orson Scott Card and Aaron Johnston. Shadows in Flight Sep 18 2022 Ender's Shadow explores the stars in this all-new novel... At the end of Shadow of the Giant, Bean flees to the stars with three of his children--the three who share the engine genes that gave him both hyper-intelligence and a short, cruel physical life. The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading audible signal speaking of events lost to Earth's history. But the Delphikis are about to make a discovery that will let them save themselves, and perhaps all of humanity in days to come. For in space before them lies a derelict Formic colony ship. Aboard it, they will find both death and wonders--support that is failing on their own ship, room to grow, and labs in which to explore their own genetics and the mysterious disease that killed the ship's colony. Ender himself refuses to return to the planet. His crew has gone home to their families, scattered across the globe. The battle school is no more. But with an external threat gone, the Earth has become a battlefield once more. The children of the Battle School are no longer heroes; they are potential weapons that can bring power to the countries that control them. One by one, all of Ender's Dragon Army are kidnapped. Only Bean escapes; and he turns for help to Ender's brother Peter Wiggin, Ender's older brother, who has already been manipulating the politics of Earth from behind the scenes. Gatefather Jul 24 2020 In Gatefather, the third installment in the Mithermages series, New York Times bestselling author Orson Scott Card continues his fantastic tale of the Mages of Westil who live in exile on Earth. Danny North is the first Gate Mage to be born on Earth in nearly 2000 years, or at least the first

survive to claim his power. Families of Westil in exile on Earth have had a treaty that required the death of any suspected Gate Mage. The wars between the Families had been terrible, until at last they realized it was their own survival in question. But a Gate Mage, one who could build a Great Gate back to Westil, would give his own Family a terrible advantage over all the others, and reignite the wars. So they all had to die. And if the Families didn't kill them, the Gate Thief would--that mysterious Mage who destroyed every Great Gate, the Gate Mage, before it could be opened between Earth and Westil. But Danny survived. And Danny battled the Gate Thief, and won. What he didn't know at the time was that the Gate Thief had a very good reason for closing the Great Gates--and Danny has now fallen into the power of that great enemy of both Earth and Westil.

Nov 20 2022 Orson Scott Card brings us back to the very beginning of his brilliant Ender's Shadow Quartet, with the novel that begins The Shadow Series and allows us to reenter Ender's world anew. This is the power of his original creation, Ender's Shadow is Card's parallel volume to Ender's Game, a book that expands and complements the first, enhancing its power, illuminating its events and its powerful conclusion. The human race is at War with the "Buggers", an insect-like alien race. The first battles went badly, and as Earth prepares to defend itself against the imminent threat of total destruction at the hands of an inscrutable alien enemy, all focus is on the development and training of military geniuses who can fight the war, and win. The long distances of interstellar space have given hope to the defenders of Earth--they have time to train these future commanders up from childhood, forging them into an irresistible force in the orbital facility called the Battle School. Andrew "Ender" Wiggin was not the only child in the Battle School, but he was just the best of the best. In this new book, Card tells the story of another of those precocious children--the one they called Bean--the one who became Ender's right hand, part of his team, in the final battle against the Buggers. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, with a mind leagues beyond anyone else's. He knew he could not survive through strength; he used his genius to gain acceptance into a children's gang, and then to help make that gang a template for success for the others. He civilized them, and lived to grow older. Bean's desperate struggle to live, and his success, brought him to the attention of the Battle School's recruiters, those people scouring the planet for legendary tacticians, and generals to save Earth from the threat of alien invasion. Bean was sent into orbit, to the Battle School. And there he met Ender....

A War of Gifts Jun 15 2022 Orson Scott Card offers a Christmas gift to his millions of fans with A War of Gifts, a short novel set during Ender Wiggin's first years at the Battle School where it is forbidden to celebrate religious holidays. The children come from many nations, many religions; while they are being trained for war, religious conflict between them is not on the curriculum. But Dink Meeker, one of the older students, doesn't see it that way. He thinks that giving gifts isn't exactly a religious observation, and on Sinterklaas Day he puts a present into another student's shoe. This small act of rebellion sets off a battle royal between the students and the staff, but some surprising alliances form when Ender comes up against a new student, Zeck Morgenthau. The War over Santa Claus will force everyone to make a choice. On Lusitania, Ender found a world where humans and pequininos and the Hive Queen could all live together; where three very different intelligent species could find common ground at last, he thought. Lusitania also harbors the descolada, a virus that kills all humans it infects, but which the pequininos require in order to become adults. The Starways Congress so fears the effects of the descolada should it escape from Lusitania, that they have ordered the destruction of the entire planet, and all who live there. Ender's Game Dec 21 2022 "The classic of modern science fiction"--Front cover.

Shadow of the Giant Feb 23 2023 The Ender Saga continues with Shadow of the Giant, which parallels the events of Ender's Game from a different character's point of view. Bean's past was a battle just to survive. He first appeared on the streets of Rotterdam, a tiny child with a mind leagues beyond anyone else. He knew he could not survive through strength; he used his tactical genius to gain acceptance into a children's gang, then to help make that gang a template for success for all the others. He civilized them, and lived to tell the tale. Then he was discovered by the recruiters for the Battle School. For Earth was at war - a terrible war against an inscrutable alien enemy. A war that humanity was near to losing. But the long distances of interstellar space has given hope to the defenders of Earth - they had time to train military geniuses up from childhood. They turned them into an irresistible force in the high-orbital facility called the Battle School. That story is told in two books, Orson Scott Card's beloved classic Ender's Game, and its parallel, Ender's Shadow. Now, in Shadow of the Giant, Bean's story continues. Bean was the smallest student at the Battle School, but he became Ender Wiggins' right hand. Since then he has grown to be a power on Earth. He served the Hegemon as strategist and general in the terrible wars that followed Ender's defeat of the alien empire attacking Earth. Now Ender and his wife Petra yearn for a safe place to build a family - something he has never known - but there is no place on Earth that does not harbor his enemies - old enemies from the days in Ender's Jeesh, new enemies from the wars on Earth. To find security, Bean and Petra must once again follow in Ender's footsteps. They must leave Earth behind, in the control of the Hegemon, and look to the stars. The first invasion of Earth was beaten back by a coalition of corporate and international military forces, and the Chinese mainland in China has been devastated by the Formic's initial efforts to eradicate Earth life forms and prepare the planet for their own settlement. The Scouring of China struck fear into the other nations of the planet; that fear blossomed into drastic action when scientists determined that the single ship that wreaked such damage was merely a scout ship. There is a mothership out beyond the Solar System's Kuiper Belt, and it's heading toward our system, unstoppable by any weapons that Earth can muster. Earth has been reorganized for defense. Earth is now a Hegemon, a planetary official responsible for keeping all the formerly warring nations in line. The Polemarch, responsible for organizing all the military forces of the planet into the new International Federation, there is an enemy within, an enemy as old as human warfare: ambition and politics.
