Andy McNab's action-packed series featuring ex-deniable operator Nick Stone returns with Line of Fire. Nick is back in London, but if he thought he was home for a break, he's very, very wrong. Backed into a corner by a man he knows he cannot trust, Stone strikes a devil's bargain. In exchange for his own safety - a life for a life - Stone is charged with locating someone who doesn't want to be found, currently hiding out in one of the remotest corners of the UK. And for the first time in a long time, he's not operating alone. But Stone and his team don't find just anyone. They find a world-class hacker, so good that her work might threaten the stability of the western world as we know it. These are dangerous waters and Stone is quickly in over

his head. Before he finally knows which way to turn, the choice is ripped out of his hands. Most people might think of home as safety but Nick Stone isn't most people. For him and his team, it's just another place to get caught in the line of fire... This dark satire about an entitled young banker in a downward spiral is "a very modern and thoroughly haunting piece of work" (The Sunday Telegraph). It's 2008 and Matt Freeman is living in London, desperately trying to keep a toehold in the financial world by running a shadow banking business with contacts in North Korea and Iran. He is furious with the emptiness and impermanence of twenty-first century life—but addicted to the allure of luxury possessions: cars, watches, bespoke suits. And meanwhile, there is the question of why the women in Matt Freeman's life seem to disappear. Capturing one of the world's financial capitals at a crucial moment, poised between extravagant excess and a terrifying recession, *Get Me Out of Here* is a satirical psychological thriller about the rage and desperation that come with the expectation of money for nothing. By turns darkly comic and unnerving, Sutton's novel possesses a moral authority rare in contemporary fiction. Danny Watts's grandfather, Fergus, was a traitor. He was arrested and left to rot and die in a Columbian jail. That's what Danny is told when his hopes of becoming a soldier are destroyed. But he knows something the army doesn't seem to know. Ages 12+. Eighteen-year-old Danny Watts and his grandfather Fergus, an ex-SAS explosives expert, travel to England, Spain, and Germany, in a life-or-death race to save the population from the spread of a lethal new drug that

has been unleashed by terrorists. Andy McNab's best selling series returns with Cold Blood. Following the death of his wife and child - the two people he cared for most - Nick finds himself desperate for a chance to escape his own misery. Thousands of miles away five ex-servicemen, badly wounded in Afghanistan, are preparing for a trek to the North Pole in an attempt to begin to rebuild their shattered bodies and minds. When Stone is summoned as close protection for the trek by an old SAS officer, he accepts unthinkingly, desperate for the chance to escape his own misery. They meet at the world's most northerly airport, where the locals are as hard as nails and the polar bear threat makes it against the law not to carry a gun. But it doesn't take long for Stone and his team to discover that neither the bears nor the locals are the most dangerous predators in this part of the world. It is quickly clear to Stone that the coldest war of all is just beginning.. A THRILLING NEW NOVEL FROM THE INTERNATIONAL BEST SELLING AUTHOR OF BRAVO TWO ZERO

But when he sees a news report of the massacre of women and children in a terrorist outrage on the other side of the world, long-suppressed memories are triggered, and Nick knows he must risk everything to repay a longstanding debt of friendship. Remote Control is the first of Andy McNab's blistering Nick Stone thrillers - bestsellers whose landscape is so compellingly close to the truth that they had to be vetted by the Ministry of Defence, and could only be published as fiction... Immediate Action is a no-holds-barred account of an extraordinary life, from the day Andy McNab was found in a carrier bag on the steps of Guy's Hospital to the day he went to fight in the Gulf War. As a delinquent youth he kicked against society. As a young soldier he waged war against the IRA in the streets and fields of South Armagh. As a member of 22 SAS Regiment he was at the centre of covert operations for nine years - on five continents. Recounting with grim humour and in riveting, often horrifying, detail his activities in the world's most highly trained and efficient Special Forces unit, McNab sweeps us into a world of surveillance and intelligence-gathering, counter-terrorism and hostage rescue. There are casualties: the best men are so often the first to be killed, because they are in front. By turns chilling,

astonishing, violent, funny and moving, this blistering first-hand account of life at the forward edge of battle confirms Andy McNab's standing in the front rank of writers on modern war. Betrayed and left for dead high in the Alps, Nick Stone is in trouble. The blood on his hands tells of a head wound he can't see and his foggy memory confirms it. He knows only one thing for certain - someone, somewhere wants to kill him. And they think they've succeeded. Stone wants revenge, but the only person who can help him is a seven year old boy. Not much protection in the pursuit of a gang of faceless men who trade in human misery. But this run-of-the-mill close protection task is about to become Stone's most personal mission yet. Payback is top of Stone's agenda. The fuse has been ignited - but who really holds the detonator? Their mission: To take out the scuds. Eight went out. Five came back. Their story had been closed in secrecy. Until now. They were British Special Forces, trained to be the best. In January 1991 a squad of eight men went behind the Iraqi lines on a top secret mission. It was called Bravo Two Zero. On command was Sergeant Andy McNab. "They are the true unsung heroes of the war." -- Lt. Col. Steven Turner, American F-15E commander. Dropped into "scud alley" carrying 210-pound packs, McNab and his men found themselves surrounded by Saddam's army. Their radios didn't work. The weather turned cold enough to freeze diesel fuel. And they had been spotted. Their only chance at survival was to fight their way to the Syrian border seventy-five miles to the northwest and swim the Euphrates river to freedom. Eight set out. Five came back. "I'll tell you who destroyed the scuds -- it was the

British SAS. They were fabulous." -- John Major, British Prime Minister. This is their story. Filled with no-holds-barred detail about McNab's capture and excruciating torture, it tells of men tested beyond the limits of human endurance... and of the war you didn't see on CNN. Dirty, deadly, and fought outside the rules. He was ordered to track down a rogue colleague. Now British Intelligence agent Nick Stone and "runner" (and former lover) Sarah Greenwood have become the hunted, racing deeper into a dark, deadly conspiracy that will change the course of world events - and the lives of millions. With seventeen years of active service in the elite SAS force, Andy McNab writes from his own harrowing experiences. Packed with authentic procedural details, as relentless as a fast-burning fuse, Crisis Four is a thriller so gritty and real that you won't know where fact ends and fiction begins. Three tons of Saddam Hussein's gold in an unguarded warehouse in Dubai... for two of Nick Stone's closest ex-SAS comrades, it was to have been the perfect, victimless crime. But when they're double-crossed and the robbery goes devastatingly wrong, only Stone can identify his friends' killer and track him down. As one harrowing piece of the complex and sinister jigsaw slots into another, Stone's quest for vengeance becomes a journey to the heart of a chilling conspiracy, to which he and the beautiful Russian investigative journalist with whom he has become ensnared unwittingly hold the key. While Nick Stone is acting as a bodyguard for a TV crew in Basra, one of the journalists saves his life. When the journalist is later kidnapped, Stone is asked by the Intelligence Service to find him, following a

trail that leads him through Iraq, London, Dublin, and finally to Kabul. Two tours of Iraq under his belt, Sergeant Dave Henley has seen something of how modern battles are fought. But nothing can prepare him for the posting to Forward Operating Base Senzhiri, Helmand Province, Afghanistan. This is a warzone like even he's never seen before.
