And, of course, kissing. The Dharian Affairs is now **OPTIONED FOR VIRTUAL REALITY** by Immersive Entertainment! New York Times Bestseller New York Times reporter and "Corner Office" columnist David Gelles reveals legendary GE CEO Jack Welch to be the root of all that's wrong with capitalism today and offers advice on how we might right those wrongs. In 1981, Jack Welch took over General Electric and quickly rose to fame as the first celebrity CEO. He golfed with presidents, mingled with movie stars, and was idolized for growing GE into the most valuable company in the world. But Welch's achievements didn't stem from some greater intelligence or business prowess. Rather, they were the result of a sustained effort to push GE's stock price ever higher, often at the expense of workers, consumers, and innovation. In this captivating, revelatory book, David Gelles argues that Welch single-handedly ushered in a new, cutthroat era of American capitalism that continues to this day. Gelles chronicles Welch's campaign to vaporize hundreds of thousands of jobs in a bid to boost profits, eviscerating the country's manufacturing base and destabilizing the middle class. Welch's obsession with downsizing—he eliminated 10% of employees every year—fundamentally altered GE and inspired generations of imitators who have employed his strategies at other companies around the globe. In his day, Welch was corporate America's leading proponent of mergers and acquisitions, using deals to gobble up competitors and giving rise to an economy that is more concentrated and less dynamic. And Welch pioneered the dark arts of "financialization," transforming GE from an admired industrial manufacturer into what was effectively an unregulated bank. The finance business was hugely profitable in the short term and helped Welch keep GE's stock price ticking up. But ultimately, financialization undermined GE and dozens of other Fortune 500 companies. Gelles shows how Welch's celebrated emphasis on increasing shareholder value by any means necessary (layoffs, outsourcing, offshoring, acquisitions, and buybacks, to name but a few tactics) became the norm in American business generally. He demonstrates how that approach has led to the greatest socioeconomic inequality since the Great Depression and harmed many of the very companies that have embraced it. And he shows how a generation of Welch acolytes radically transformed companies like Boeing, Home Depot, Kraft Heinz, and more. Finally, Gelles chronicles the change that is now afoot in corporate America, highlighting companies and leaders who have abandoned Welchism and are proving that it is still possible to excel in the business world without destroying livelihoods, gutting communities, and spurning regulation. Before his untimely death in 1982, Lester Bangs was inarguably the most influential critic of rock and roll. Writing in hyper-intelligent Benezdrine prose that calls to mind Jack Kerouac and Hunter S. Thompson, he eschewed all conventional thinking as he discussed everything from Black Sabbath being the first truly Catholic band to Anne Murray's smoldering sexuality. In *Mainlines*, Blood Feasts, Bad Taste fellow rock critic John Morthland has compiled a companion volume to *Psychotic Reactions* and *Carburetor Dung*, the first, now classic collection of Bangs's work. Here are excerpts from an autobiographical piece Bangs wrote as a teenager, travel essays, and, of course, the music pieces, essays, and criticism covering everything from titans like Miles Davis, Lou Reed, and the Rolling Stones to esoteric musicians like Brian Eno and Captain Beefheart. Singularly entertaining, this book is an absolute must for anyone interested in the history of rock. The New York Times bestseller about West Point's Class of 1966, by Pulitzer Prize-winning journalist and author Rick Atkinson. "A story of epic proportions [and] an awesome feat of biographical reconstruction."—The Boston Globe A classic of its kind, *The Long Gray Line* is the twenty-five-year saga of the West Point class of 1966. With a novelist's eye for detail, Rick Atkinson (author of the *Liberation Trilogy*) illuminates this powerful story through the lives of three classmates and the women they loved—from the boisterous cadet years, to the fires of Vietnam, to the hard peace and internal struggles that followed the war. The rich cast of characters also includes Douglas MacArthur, William C. Westmoreland, and a score of other memorable figures. For Mia Ahlström, a world ruled by order is the only world she allows. A lifetime of chore charts, to-do lists and study schedules have helped earn her a spot at Redwood State University's engineering program. And while her five year plan includes finding her very own happily-evah-aftah, years at an all-girls boarding school left her feeling woefully unprepared for keg parties and co-ed extracurricular activities. So nothing surprises her more than catching the eye of Tyr Fredriksen at her first college party. The imposing Swede is arrogantly charming, stubbornly overprotective, and runs hot-and-cold in ways that defy reason . . . until Mia learns that she's fallen for the Norse God of War; an immortal battle deity hiding on Midgard (Earth) to protect a valuable Asgardian treasure from a feral enemy. With a price on his head, Tyr brings more than a little excitement to Mia's rigidly controlled life. Choosing Tyr may be the biggest distraction—or the greatest adventure—she's ever had. A teen from Ohio discovers he's the last in a long line of magical warriors chosen to fight to the death. Before he knew about the Roses, sixteen-year-old Jack lived an unremarkable life in the small Ohio town of Trinity. Only the medicine he has to take daily and the thick scar above his heart set him apart from the other high-schoolers. Then one day Jack skips his medicine. Suddenly, he is stronger, fiercer, and more confident than ever before. And it feels great—until he loses control of his own strength and nearly kills another player during soccer team tryouts. Soon, Jack learns the startling truth about himself: He is Weirind; part of an underground society of magical people who live among us. At the head of this magical society sit the feuding houses of the Red Rose and the White Rose, whose power is determined by playing The Game: a magical tournament in which each house sponsors a warrior to fight to the death. The winning house rules the Weir. As if his bizarre magical heritage isn't enough, Jack finds out that he's not just another member of Weirind—he's one of the last of the warriors, at a time when both houses are scouting for a player.
