BRAT (Blender Rapid Animation Tool) Feb 09 2022 Abstract: These are exciting times in the world of computer animation. Individual artists can now produce animations which in the past required teams of artists and programmers to create, but the obstacles to an individual artist can still be daunting in terms of required manual input or technical skills. The goal of this thesis is to demonstrate a simple software tool (BRAT - Blender Rapid Animation Tool) which allows an artist to create cartoon-like 3D animations using the artist's 2D drawings, at the touch of a button. It could be useful for any artist producing 3D animations. The tool is a Python script add-on to the Blender 3D modeling system. It is a high level program which links to Blender's Python API library of low level calls to automate the manual work normally required by 3D artists to create an animation. The output of BRAT is a 3D animation file showing a character traversing a rectangular matrix of buildings. This thesis compares the manual way of creating such an animation with the BRAT automated process. The comparison explains the benefits of using BRAT. This thesis also discusses the design of BRAT and compares it to some other existing 3D software tools which also attempt to simplify the 3D animation production process. The conclusion discusses some future enhancements to make BRAT more useful.

Sing Them Home Jan 28 2021 One of Entertainment Weekly's Ten Best Books of the Year: "A magical novel that even cynics will close with a smile" (People). Everyone in Emlyn Springs, Nebraska, knows the story of Hope Jones, who was lost in the tornado of 1978. Her three young children found some stability in their father, a preoccupied doctor, and in their mother's spitfire best friend—but nothing could make up for the loss of Hope. Larken, the eldest, is now an art history professor who seeks in food an answer to a less tangible hunger. Gaelan, the son, is a telegenic weatherman who devotes his life to predicting the unpredictable. And the youngest, Bonnie, is a self-proclaimed archivist who combs roadsides for clues to her mother's legacy, and permission to move on. When they're summoned home after their father's sudden death, each sibling is forced to revisit the childhood event that has defined their lives. With lyricism, wisdom, and humor, this novel by the national bestselling author of Broken for You explores the consequences of protecting those we love. Sing Them Home is a magnificent tapestry of lives connected and undone by tragedy, lives poised—unbeknownst to the characters—for redemption. "Comparisons to John Irving and Tennessee Williams

would not be amiss in this show-stopping debut.” —KirkusReviews, starred review “Sing Them Home constantly surprises . . . A big cast of vividly portrayed characters.”

—TheBoston Globe “Fans of Ann Patchett and Haven Kimmel should dive onto the sofa one wintry weekend with Stephanie Kallos’ wonderfully transportive second novel.”
