The Complete Guide to Nutrition in Primary Care Edited by Darwin Deen, MD, MS Lisa Hark, PhD, RD Clinicians and patients agree that primary care office visits should include routine nutrition assessment and counseling. But how do you fit it into an already crowded consultation? And what is the most up-to-date advice? With The Complete Guide to Nutrition in Primary Care, Drs. Deen and Hark provide the necessary tools. This comprehensive overview of nutrition answers your questions on:

- Nutrition as Preventive Medicine
- Nutrition through the Lifecycle
- Improving Health by Changing Diet and Lifestyle Behaviors
- Vitamins, Minerals, Dietary Supplements, and the Alternative
- Successful Changes to the Environment

This timely paperback contains everything the primary care clinician needs to counsel patients on diet and lifestyle issues. Keep it close at hand for the frequent consultation it is sure to receive. Dr. Darwin Deen is one of the nation's foremost authorities on nutrition. Currently Professor of Clinical, Family and Social Medicine and Director of Medical Student Education at the Albert Einstein College of Medicine in New York, he has trained a generation of physicians on the connection between nutrition and health. He has played a leading role in revising medical school curricula to incorporate nutrition training. An award-winning teacher and noted author, he serves as Chair of the Task Force on Medical Nutrition Education of the American College of Nutrition and co-

chairs the Group on Nutrition of the Society of Teachers of Family Medicine. His years of experience as a family physician make him perfectly suited to advise clinicians on counseling their patients on diet and lifestyle. Dr. Lisa Hark is a renowned family nutrition expert, with more than 20 years of experience in nutrition counseling and promoting the benefits of healthy eating in children and adults. As Director of the Nutrition Education Program at the University of Pennsylvania School of Medicine in Philadelphia, she developed a model medical school curriculum and textbook, *Medical Nutrition and Disease*, which has become one of the most widely used texts in nutrition education. She was given the Excellence in Medical/Dental Nutrition Education award from the American Society for Nutrition. Dr. Hark was also the host of the TV show, "Honey, We're Killing the Kids," which airs on TLC, and is a widely sought after speaker who communicates nutrition concepts effectively to health professionals, patients, and the media. www.blackwellmedicine.com

Integrative medicine is an approach to wellness that makes use of both conventional and alternative therapies to achieve optimal health and healing. Nutrition-based therapies are consistently among the highest used alternative therapies to treat a wide variety of illnesses. This book provides consumers and health care professionals with practical guidance on integrating nutrition therapies into disease prevention and management. It provides reliable and accurate information from experts in the nutrition field including dietitians, nutritionists, physicians, researchers, and academic professionals. *Integrative Nutrition Therapy* includes up-to-date information on dietary supplements, popular diets, physical activity, and food allergies. The book covers disease prevention for cancer, cardiovascular disease, diabetes, and obesity. Additional topics include liver/pancreatic conditions and musculoskeletal disorders as well as nutrigenomics, epigenetics, and metabolomics. The book provides evidence-based recommendations for which therapies might be appropriate for various

conditions and discusses the possible adverse effects that may develop. It also includes guidelines and suggestions for creating individualized, integrative care plans. Integrative Nutrition Therapy is organized in a systematic manner that presents the scientific data using an evidence-based, how-to approach. An overview of integrative medicine is written by Dr. Roberta Lee, a leading authority in the field. Award-winning nutrition experts provide practical knowledge for the integrative practitioner, covering topics such as: Nutrition screening and assessment Search for the optimum diet Functional foods and nutritional supplements Nutritional recommendations for women's health Health benefits of physical activity Diet and mental health Although unanswered questions still exist, this resource gives you a much-needed guide to the information currently available on nutrition and lifestyle-based therapies. Written by experienced teachers and experts, Food, Nutrition and Health for CSEC takes a skills-led approach. It concentrates on the development of skills, critical thinking and teamwork providing a firm foundation for the SBA, further study and beyond. Completely revised with new chapters and sections covering everything the health-care provider needs to know when working with the older adult either at home or in nursing and long-term care facilities. Chapters cover factors affecting nutrition, nutrition and disease, nutritional assessment, dining challenges and regulatory compliance. This scientifically sound and practical resource for new and experienced nutrition professionals includes new forms, resources, the food guide pyramid for older adults and an index of tales. The study guide provides a detailed review of chapter material, reiterating chapter objectives and key concepts. Study Guide to accompany Nutrition: Everyday Choices is an important resource for students of nutrition, offering a host of tools to make study time more efficient and more effective. Aligned chapter-by-chapter with the textbook, this guide gives you everything you need to fully internalize essential information. Each chapter includes a condensed overview of the topic, an outline of chapter topics, key vocabulary, practice questions, and exercises in multiple-choice, true/false, and matching format. Focused, productive study leads to information retention, and nutrition students will value the resources provided in this study guide. Never Highlight a Book Again! Just the FACTS101 study guides give the student the textbook outlines, highlights, practice quizzes and optional access to the full practice tests for their textbook. Results from the National Research Council's (NRC) landmark study Diet and health are readily accessible to nonscientists in this friendly, easy-to-read guide. Readers will find the heart of the book in the first chapter: the Food and Nutrition Board's nine-point dietary plan to reduce the risk of diet-related chronic illness. The nine points are presented as sensible guidelines that are easy to follow on a daily basis, without complicated measuring or calculating—and without sacrificing favorite foods. Eat for Life gives practical recommendations on foods to eat and in a "how-to" section provides tips on shopping (how to read food labels), cooking (how to turn a high-fat dish into a low-fat one), and eating out (how to read a menu with nutrition in mind). The volume explains what protein, fiber, cholesterol, and fats are and what foods contain them, and tells readers how to reduce their risk of chronic disease by modifying the types of food they eat. Each chronic disease is clearly defined, with information provided on its prevalence in the United States. Written for everyone concerned about how they can influence their health by what they eat, Eat for Life offers potentially lifesaving information in an understandable and persuasive way.
