The Making of Modern Colombia Oct 27 2022 Colombia's status as the fourth largest nation in Latin America and third most populous—as well as its largest exporter of such disparate commodities as emeralds, books, processed cocaine, and cut flowers—makes this, the first history of Colombia written in English, a much-needed book. It tells the remarkable story of a country that has consistently defied modern Latin American stereotypes—a country where military dictators are virtually unknown, where the political left is congenitally weak, and where urbanization and industrialization have spawned no lasting populist movement. There is more to Colombia than the drug trafficking and violence that have recently gripped the world's attention. In the face of both cocaine wars and guerrilla conflict, the country has maintained steady economic growth as well as a relatively open and democratic government based on a two-party system. It has also produced an impressive body of art and literature. David Bushnell traces the process of state-building in Colombia from the struggle for independence, territorial

consolidation, and reform in the nineteenth century to economic development and social and political democratization in the twentieth. He also sheds light on the modern history of Latin America as a whole.

The Jane Austen Cookbook Jan 18 2022 Jane Austen wrote her novels in the midst of a large and sociable family. Brothers and sisters, nieces and nephews, friends and acquaintances were always coming and going, and eating and drinking. Fortunately one of Jane's dearest friends, Martha Lloyd, lived with the family for many years and recorded in her Household Book over 100 recipes enjoyed by the Austens. This family fare, tested and modernized for today's cooks, is reproduced here, together with some of the more sophisticated dishes which Jane and her characters would have enjoyed at balls, picnics and supper

parties.
