*Women's Football in Latin America* Aug 25 2020 The chapters in the *Women's Football in Latin America* two volumes will look at the social and historical means of the embodied representation of gender differences that has been deeply embedded in the history of Latin American women and football. The authors identify and analyse how, in a range of ways, Latin American women have found in-between spaces, amid severe macho structures, to establish and play their football. As a result, the book will be of

interest to researchers and students of sport sociology, football studies, gender studies, comparative sports studies, sports history, and Latin American sporting culture. The second volume of this edited collection integrates a range of high-quality studies on women's football across Latin American countries to a global readership. From studies with marginalized communities, football fans but also the media and professional women's footballers, the chapters show how fútbol has been a key part of oppressive gender structures, and ways that women have fought for gender equity within this key cultural expression in Latin America. The book also suggests a fascinating research and activist agenda for women's football in the continent for the next decades.

*Race and Football in America* Jan 30 2021 The "beautifully written" biography of the first African American player to be drafted by the NFL, "a must read for any sports fan" (Warren Rogan, host of the podcast Sports' Forgotten Heroes). As the first African American to play quarterback, George Taliaferro was a trailblazer whose athletic prowess earned him accolades throughout his football career. Instrumental in leading Indiana University to an undefeated season and undisputed Big Ten championship in 1945, Taliaferro was a star when many major universities had no black players on their rosters and others were stacking black players behind white starters. George Taliaferro would later rack up impressive statistics while playing professionally for the New York Yanks, Dallas Texans, Baltimore Colts, and Philadelphia Eagles. His athletic prowess did little to prevent him from facing segregation and discrimination on a daily basis, but his popularity as an athlete also gave him a platform. Playing professionally gave Taliaferro more opportunity to use football to fight oppression and to interact with other important trailblazers, like Joe Louis, Nat King Cole, Muhammad Ali, and Congressman John Lewis. *Race and Football in America* tells Taliaferro's story and profiles the experiences of other athletes of color who were recognized for their athleticism yet oppressed for their skin color, as they fought (and continue to fight) for equal rights and opportunities. Together these stories provide an insightful portrait of race in America. "A portrait of a young man who overcame the obstacles of racism, the military draft, and the death of his father. His vehicle for climbing over obstacles was athletic prowess and inner strength." —Jim Baumgartner, College Football Hall of Fame

*Scrimmage for War* Jul 16 2022 In late November 1941, two college football teams—Willamette University and San Jose State—set sail for Honolulu for a series of games with the University of Hawaii. Instead of a festive few weeks of football and fun, the players found themselves caught up in the first days of the United States' war with Japan. For two weeks after the Japanese attacked Pearl Harbor on December 7, the young men were recruited to dig and man trenches, string barbed wire, guard hotels, and join patrols as martial law took hold in Honolulu. They arrived home on Christmas Day after a dangerous journey back across the Pacific. Almost all of the players would go on to fight in the war. This is a different kind of war story, blending battle and gridiron—along with a strong dose of human interest, of college-aged young men unexpectedly caught up in the world war. This is a story of war and football, of Pearl Harbor and the first moments of the U.S. in World War II. It is a story of the very first days of World War II as experienced by a group of young men who witnessed it firsthand—and would soon be fighting it (indeed, who were already fighting it). This is a story of heroism, courage, self-

sacrifice, and duty in the maelstrom of war.
