to improve the development and organization of ideas and expand vocabulary. Our fun and innovative exercises inspire creativity and the desire to write.

Just Ask! Jun 17 2022 Justice Sonia Sotomayor and award-winning artist Rafael Lopez create a kind and caring book about the differences that make each of us unique. A #1 New York Times bestseller! Winner of the Schneider Family Book Award! Feeling different, especially as a kid, can be tough. But in the same way that different types of plants and flowers make a garden more beautiful and enjoyable, different types of people make our world more vibrant and wonderful. In *Just Ask*, United States Supreme Court Justice Sonia Sotomayor celebrates the different abilities kids (and people of all ages) have. Using her own experience as a child who was diagnosed with diabetes, Justice Sotomayor writes about children with a variety of challenges--and looks at the special powers those kids have as well. As the kids work together to build a community garden, asking questions of each other along the way, this book encourages readers to do the same: When we come across someone who is different from us but we're not sure why, all we have to do is Just Ask. Praise for *Just Ask*: * "Addressing topics too often ignored, this picture book presents information in a direct and wonderfully child-friendly way." --Booklist, *STARRED REVIEW* "An affirmative, delightfully diverse overview of disabilities." --Kirkus Reviews "A hopeful and sunny exploration of the many things that make us unique [with] dynamic and vibrant illustrations [that] emphasize each character's unique abilities. . . . A thoughtful and empathetic story of inclusion." --SLJ

The Gingerbread Man Loose at Christmas Apr 03 2021 The

holidays are for giving thanks and nothing can stop this Gingerbread Man from delivering his to his favorite member of the community! Everyone in class is busy practicing songs and making goodies for their trip to town to thank community helpers, and the Gingerbread Man has made a card for someone extra sweet. But before he can deliver his gift, whipping wind and swirling snow come to town, too. Slushy sidewalks are no place for a cookie, but this Gingerbread Man won't let a little bad weather stop him! "I'll search on my own, as fast as I can! I'll dash through this snow. I'm the Gingerbread Man!" With all the flavors of the season and generous dashes of kindness and gratitude, the Gingerbread Man's newest adventure makes for a perfect read-aloud throughout the holidays.

Problem-Solving Therapy Sep 20 2022 MAXIMIZE POSITIVE PATIENT OUTCOMES Enhance Function--Avert Relapses--Present New Problems In this new updated edition, authors Thomas J. D'Zurilla and Arthur M. Nezu, present some of the most useful advances in problem-solving therapy (PST) today. An excellent resource for maximizing positive patient outcomes, this all-inclusive guide helps enhance your problem solving skills and apply successful clinical techniques to help your clients improve their lives. Known for its presentation of solid research results and effective PST training tools, this best selling guide has been fully updated to include: NEW research data on social problem solving and adjustment NEW studies on the efficacy of PST NEW social problem solving models NEW updated and more user-friendly therapist's training manual Written for a wide audience, from therapists and counselors to psychologists and social workers, this highly readable and

practical reference is a must-have guide to helping your patients identify and resolve current life problems. The book set is designed to be read alongside its informal "manual" accompaniment, *Solving Life's Problems: A 5-Step Guide to Enhanced Well-Being* by D'Zurilla, Nezu, and Christine Maguth Nezu. Purchase of the two books as a set will get you these life-changing texts at an \$7.00 savings over the two books bought individually.

The Runaway Pumpkin Nov 10 2021 When Buck, Billy, and their little sister Lil spy the biggest pumpkin they've ever seen they can't resist. Buck and Billy try to roll the pumpkin down the hill, but it's too big! The giant pumpkin bumps and thumps its way through the family farm, only to end up as a sumptuous evening feast. This rollicking read-aloud picture book is guaranteed to keep children and families laughing.

Understanding the Problem. Problem Solving and Communication Activity Series. The Math Forum Mar 14 2022 Different techniques for understanding a problem can lead to ideas for never-used-before solutions. Good problem-solvers use a problem-solving strategy and may come back to it frequently while they are working on the problem to refine the strategy, see if they can find better solutions, or find other questions. Writing is an integral part of understanding the problem and builds momentum in thought. It helps the problem solver organize information and articulate the questions to be addressed when developing a solution. This document includes activities that support students to develop strategies for understanding challenging math problems, along with facilitation suggestions for teachers.

Problem Solving in All Seasons, Grades 3-5 Jun 24 2020

Holidays and seasonal activities provide excitement and a change of pace for teachers and students alike. They also offer perfect backdrops for mathematical tasks that can be related to other topics and themes in the classroom. Problem Solving in All Seasons, Grades 3-5 delivers thirty-six appealing, real-world situations, arranged in grade-level order, to engage young learners in mathematical tasks.

A Bad Case of Stripes Feb 25 2023 "What we have here is a bad case of stripes. One of the worst I've ever seen!" Camilla Cream loves lima beans, but she never eats them. Why? Because the other kids in her school don't like them. And Camilla Cream is very, very worried about what other people think of her. In fact, she's so worried that she's about to break out in...a bad case of stripes!

Ira Sleeps Over Jan 24 2023 Ira is thrilled to spend the night at Reggie's until his sister raises the question of whether he should take his teddy bear. "An appealing picture book which depicts common childhood qualms with empathy and humor."--"Booklist." Full-color illustrations.

Jamaica's Find Oct 21 2022 A little girl finds a stuffed dog in the park and decides to take it home.

The Writing Revolution Mar 02 2021 Why you need a writing revolution in your classroom and how to lead it The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many

students may seem, The Writing Revolution can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities The Writing Revolution is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Tony's Bread May 04 2021 Tony dreams that one day he'll become the most famous baker in northern Italy. His poor daughter Serafina wants to be allowed to marry. Each of their dreams seems far away until Angelo, a rich young nobleman from Milan, appears and devises a way to make everyone's dreams come true.

Make It Stick Aug 19 2022 Discusses the best methods of learning, describing how rereading and rote repetition are counterproductive and how such techniques as self-testing, spaced retrieval, and finding additional layers of information in new material can enhance learning.

Train Your Brain with Problem-Solving Activities Feb 06 2021 Solving problems is one of the primary parts of a computer coder's job. This book uses fun activities to explore different computer programming concepts, like computational thinking,

organization, and breaking down tasks. Each activity allows readers to explore the concepts without the use of a computer, instead using everyday objects to expand the reader's understanding of computer programming skills and concepts.

We Are Water Protectors Apr 15 2022 Winner of the 2021 Caldecott Medal Inspired by the many Indigenous-led movements across North America, *We Are Water Protectors* issues an urgent rallying cry to safeguard the Earth's water from harm and corruption—a bold and lyrical picture book written by Carole Lindstrom and vibrantly illustrated by Michaela Goade. Water is the first medicine. It affects and connects us all . . . When a black snake threatens to destroy the Earth and poison her people's water, one young water protector takes a stand to defend Earth's most sacred resource.

Mathematics for Elementary Teachers Nov 22 2022 This activities manual includes activities designed to be done in class or outside of class. These activities promote critical thinking and discussion and give students a depth of understanding and perspective on the concepts presented in the text.

Bringing Down the Moon Book and Toy Gift Pack Dec 11 2021 Mole thinks the moon is the most beautiful thing he's ever seen and he wants it. But bringing down the moon is not as easy as he thinks! Children can cuddle up with their own soft toy Mole as they listen to his story.

Two Bad Ants Oct 17 2019 When two bad ants desert from

their colony, they experience a dangerous adventure that convinces them to return to their former safety.

Stellaluna Sep 27 2020 After she falls headfirst into a bird's nest, a baby fruit bat is raised like a bird until she is reunited with her mother.

I Have a Little Problem, Said the Bear Jul 18 2022 The bear has a problem. He asks everyone for help, but no one seems to have time to talk with him. What will it take to get someone to listen to him?

After the Fall (How Humpty Dumpty Got Back Up Again) Nov 17 2019 From the New York Times–bestselling creator of The Adventures of Beekle: The Unimaginary Friend comes the inspiring epilogue to the beloved classic nursery rhyme Humpty Dumpty. Everyone knows that when Humpty Dumpty sat on a wall, Humpty Dumpty had a great fall. But what happened after? Caldecott Medalist Dan Santat's poignant tale follows Humpty Dumpty, an avid bird watcher whose favorite place to be is high up on the city wall—that is, until after his famous fall. Now terrified of heights, Humpty can no longer do many of the things he loves most. Will he summon the courage to face his fear? After the Fall (How Humpty Dumpty Got Back Up Again) is a masterful picture book that will remind readers of all ages that life begins when you get back up. 2018 NCTE Charlotte Huck Award Winner A Kirkus Reviews Best Picture Book of 2017 A New York Times Notable Children's Book of 2017 A New York City Public Library Notable Best Book for Kids A Chicago Public Library Best Book of 2017 A Horn Book Fanfare Best Book of 2017 An NPR Best Book of 2017

If You Take a Mouse to the Movies: A Special Christmas Edition Sep 08 2021 What's more fun than spending Christmas

with your family? Well, spending Christmas with your family and Mouse, of course! The creators of the #1 New York Times best-selling If You Give . . . Book™ series have brought their stories, recipes, songs, games, and activities to this deluxe edition of If You Take a Mouse to the Movies—a perfect way for families to celebrate the holidays together.

CPS for Teens Jul 26 2020 Educational title for gifted and advanced learners.

Getting Started With Team-Based Learning Mar 22 2020 This book is written for anyone who has been inspired by the idea of Team-Based Learning (TBL) through his or her reading, a workshop, or a colleague's enthusiasm, and then asks the inevitable question: how do I start? Written by five authors who use TBL in their teaching and who are internationally recognized as mentors and trainers of faculty making the switch to TBL, the book also presents the tips and insights of 46 faculty members from around the world who have adopted this teaching method. TBL is a uniquely powerful form of small group learning. It harnesses the power of teams and social learning with accountability structures and instructional sequences. This book provides the guidance, from first principles to examples of practice, together with concrete advice, suggestions, and tips to help you succeed in the TBL classroom. This book will help you understand what TBL is and why it is so powerful. You will find what you need to plan, build, implement, and use TBL effectively. This book will appeal to both the novice and the expert TBL teacher.

New Kid Dec 31 2020 Winner of the Newbery Medal, Coretta Scott King Author Award, and Kirkus Prize for Young Readers' Literature! Perfect for fans of Raina Telgemeier and Gene Luen

Yang, *New Kid* is a timely, honest graphic novel about starting over at a new school where diversity is low and the struggle to fit in is real, from award-winning author-illustrator Jerry Craft. Seventh grader Jordan Banks loves nothing more than drawing cartoons about his life. But instead of sending him to the art school of his dreams, his parents enroll him in a prestigious private school known for its academics, where Jordan is one of the few kids of color in his entire grade. As he makes the daily trip from his Washington Heights apartment to the upscale Riverdale Academy Day School, Jordan soon finds himself torn between two worlds—and not really fitting into either one. Can Jordan learn to navigate his new school culture while keeping his neighborhood friends and staying true to himself? This middle grade graphic novel is an excellent choice for tween readers, including for summer reading. *New Kid* is a selection of the Schomburg Center's Black Liberation Reading List. Plus don't miss Jerry Craft's *Class Act*!

The Leader in Me Dec 19 2019 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt

from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

The Big Book of Conflict Resolution Games: Quick, Effective Activities to Improve Communication, Trust and Collaboration
May 16 2022 Make workplace conflict resolution a game that EVERYBODY wins! Recent studies show that typical managers devote more than a quarter of their time to resolving coworker disputes. The Big Book of Conflict-Resolution Games offers a wealth of activities and exercises for groups of any size that let you manage your business (instead of managing personalities). Part of the acclaimed, bestselling Big Books series, this guide offers step-by-step directions and customizable tools that empower you to heal rifts arising from ineffective communication, cultural/personality clashes, and other specific problem areas—before they affect your organization's bottom line. Let The Big Book of Conflict-Resolution Games help you to: Build trust Foster morale Improve processes Overcome diversity issues And more Dozens of physical and verbal activities help create a safe environment for teams to explore several common forms of conflict—and their resolution. Inexpensive, easy-to-implement, and proved effective at Fortune 500 corporations and mom-and-pop businesses alike, the exercises in The Big Book of Conflict-

Resolution Games delivers everything you need to make your workplace more efficient, effective, and engaged.

Emotion-Centered Problem-Solving Therapy Apr 22 2020

Written by the developers of the popular Problem-Solving Approach (PST), this evidence-based manual reflects important advances in neuroscience that underscore the important role of emotion as a crucial aspect of behavioral health treatment. This updated treatment model, Emotion-Centered Problem-Solving Therapy (EC-PST) moves emotion to a critical position that is integrated throughout its therapeutic strategies. This is a significant shift in interventions that had previously focused on cognitive approaches. Comprehensive and detailed, this manual provides specific treatment guidelines based on a "stepped-care" model of PST through four major toolkits, clinical examples, and case studies for the application of EC-PST. It describes approaches that can be used for a wide variety of populations (including such targeted groups as U.S. Veterans and active military personnel), settings, and client issues. It addresses such new implementation systems as telehealth, and community collaborative care models. In addition, the authors provide empirically-based evidence of the treatment's efficacy underlying positive functioning factors such as hope, well-being, enhanced leadership, and more. The print version of the book includes free, searchable, digital access to the entire contents. Therapy client workbook available as an added resource with book purchase. Key Features: Provides evidence-based update of popular treatment modality Authored by the developers of PST and EC-PST Includes clinical examples, treatment aids, and case studies for treatment with a variety

populations Offers new treatment guidelines for suicide risk reduction, enhancing positive functioning, and fostering resilience among U.S. veterans and active military personnel Adopted by the VA and DOD Also available for purchase,

Emotion-Centered Problem-Solving Therapy Client Workbook

The Invisible Boy Aug 07 2021 A gentle story that teaches how small acts of kindness can help children feel included and allow them to flourish, from esteemed author and speaker Trudy Ludwig and acclaimed illustrator Patrice Barton. A simple act of kindness can transform an invisible boy into a friend... Meet Brian, the invisible boy. Nobody in class ever seems to notice him or think to include him in their group, game, or birthday party . . . until, that is, a new kid comes to class. When Justin, the new boy, arrives, Brian is the first to make him feel welcome. And when Brian and Justin team up to work on a class project together, Brian finds a way to shine. Any parent, teacher, or counselor looking for material that sensitively addresses the needs of quieter children will find The Invisible Boy a valuable and important resource. Includes a discussion guide and resources for further reading.

Understanding Marine Debris May 24 2020 Contains an assortment of puzzles, brain-teasers and coloring activities help children understand the problem of marine debris while having fun at the same time. Suitable for all ages.

Math Problem-Solving Activities for Time Jan 12 2022

Sharpen mathematical problem-solving skills with these brain-teasing activities. Parents, students, and teachers will love these fun challenges, puzzles, and logical thinking pages. They're a great way to practice higher-order thinking skills.

180 Days of Problem Solving for Sixth Grade Feb 01 2021 180

Days of Problem Solving is a fun and effective daily practice workbook designed to help students improve critical-thinking and reasoning skills. This easy-to-use sixth grade workbook is great for at-home learning or in the classroom. The engaging standards-based activities cover grade-level skills with easy to follow instructions and an answer key to quickly assess student understanding. Students will focus on one skill each week to learn the problem-solving process, use visual models, and solve multi-step, non-routine word problems. Watch as students build problem solving skills with these quick independent learning activities. Parents appreciate the teacher-approved activity books that keep their child engaged and learning. Great for homeschooling, to reinforce learning at school, or prevent learning loss over summer. Teachers rely on the daily practice workbooks to save them valuable time. The ready to implement activities are perfect for daily morning review or homework. The activities can also be used for intervention skill building to address learning gaps.

Jeb Scarecrow's Pumpkin Patch Aug 27 2020 Jeb Scarecrow comes up with a wonderful plan to scare the crows away from his pumpkin patch.

Detective LaRue Jan 20 2020 While on vacation, Mrs. LaRue receives letters from her dog Ike who has been falsely accused of harming the neighbor's cats and is trying to clear his name.

Have Fun, Molly Lou Melon Feb 13 2022 A creative companion to Stand Tall, Molly Lou Melon Molly Lou Melon's grandma taught her to be happy with herself no matter what, but that's not all she learned. Molly Lou heard all about how her grandma didn't have fancy store-bought toys when she was little. She made dolls out of twigs and flowers and create

her own fun in her backyard. So Molly Lou does just that, proving that the best thing to play with is a huge imagination!

Shante Keys and the New Year's Peas Jun 05 2021 Shanté Keys loves New Year's Day! But while Grandma fixed chitlins, baked ham, greens, and cornbread, she forgot the black-eyed peas! Oh no—it'll be bad luck without them! So Shanté sets out to borrow some from the neighbors.

Writing about Mathematical Concepts Feb 19 2020 The study took place in an Algebra 1 class with mostly ninth grade students at an urban private school. The research focused on twenty students, one who was an English Language Learner whose primary language was Spanish. These students had varying mathematical skills, and mostly relied on procedure to solve math problems. The objective of the intervention was to increase conceptual knowledge. Intervention and Data: Over the course of three months I took baseline data and completed an intervention. I took observational field notes in class, recording how much students were participating and what kinds of activities they were doing. I took pre and post student achievement data for each of the four activities. Student achievement data included both homework and test problems. During the intervention, students did four activities on four different topics that students were currently learning. Activities scaffolded students with how to solve a problem and write a good explanation for how and why. For the first two activities students were given a math problem along with different explanations of how to solve the problem. Students were to figure out which explanation was best. For the third activity, students were given a math problem and its solution and were expected to write down how and why each step was being

done. For the fourth activity, students were given two math problems and were asked to write a solution to each problem, and then explain how and why they did each step. After each activity, students got feedback on their responses from a partner, and filled out a survey on the activity. Results: Students' problem solving skills and explanation skills increased after doing the intervention. Students developed different roles during the activity between partners, becoming readers, listeners, questioners, or leaders. Also student achievement of the English Language Learner increased.

How People Learn Oct 09 2021 First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from novices? What can teachers and schools do--with curricula, classroom settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary

teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Prudy's Problem and How She Solved It Dec 23 2022 Prudy collects so many things that everyone says she has a problem but when a crisis convinces her that they are right, she comes up with the perfect solution.
