The Middle East in the 21st century has witnessed a game-changing rollercoaster ride that has transformed relationships across the boards. Turkey underwent the most dramatic changes of its democratic history, propelling it into the role of major regional actor. The "Arab Spring" cast the region into political and social turmoil. US-led wars devastated the lands and peoples of several countries with widespread, rippling repercussions. And the balance of global power shifted dramatically, breaking America's long-standing geopolitical dominance in the Middle East. The politics of the Middle East are now up for grabs-but what are the sources of its future leadership? The Arab world is still adrift. Yet there are grounds for optimism that Iran may at last be re-emerging onto the world scene as a legitimate and influential actor. And above all, Turkey's experience, despite messy partisan politics, still offers the only convincing Muslim model of dynamic and effective governance. Neither Turks, Arabs nor Iranians will ever be the same again-nor will they interact with the West again in the old familiar ways. The author breaks with conventional US-centric analysis of the region to capture the deeper political and human forces that reflect the Middle East's own history and culture. \*\*\* Praise for A World Without Islam by Graham E. Fuller "Another must-read by one of the

most thought-provoking writers on Islam and the Middle East... At once a brilliant history lesson and a fascinating thought experiment..." Reza Aslan, author of *No God But God*, and *Beyond Fundamentalism*. "A must read. Graham Fuller's *A World Without Islam* is a tour de force by one of the world's foremost authorities on global Muslim politics. Fuller's masterful study provides an insightful and at times provocative analysis of the character of Muslim-West relations..." John L. Esposito, author of *The Future of Islam*. "A delightfully original take on...the prospects for liberal democracy in the broader Islamic Middle East."—Matthew Kaminski, *Wall Street Journal* As the Arab Spring threatens to give way to authoritarianism in Egypt and reports from Afghanistan detail widespread violence against U.S. troops and women, news from the Muslim world raises the question: Is Islam incompatible with freedom? In *Islam without Extremes*, Turkish columnist Mustafa Akyol answers this question by revealing the little-understood roots of political Islam, which originally included both rationalist, flexible strains and more dogmatic, rigid ones. Though the rigid traditionalists won out, Akyol points to a flourishing of liberalism in the nineteenth-century Ottoman Empire and the unique "Islam-liberal synthesis" in present-day Turkey. As he powerfully asserts, only by accepting a secular state can Islamic societies thrive. *Islam without Extremes* offers a desperately needed intellectual basis for the reconcilability of Islam and liberty. Named by *Time* magazine as one of the 100 most important innovators of the century, Tariq Ramadan is a leading Muslim scholar, with a large following especially among young European and American Muslims. Now, in his first book written for a wide audience, he offers a marvelous biography of the Prophet Muhammad, one that highlights the spiritual and ethical teachings of one of the most influential figures in human history. *In the Footsteps of the Prophet* is a fresh and perceptive look at Muhammad, capturing a life that was often eventful, gripping, and highly charged. Ramadan provides both an intimate portrait of a man who was shy, kind, but determined, as well as a dramatic chronicle of a leader who launched a great religion and inspired a vast empire. More important, Ramadan presents the main events of the Prophet's life in a way that highlights his spiritual and ethical teachings. The book underscores the significance of the Prophet's example for some of today's most controversial issues, such as the treatment of the poor, the role of women, Islamic criminal punishments, war, racism, and relations with other religions. Selecting those facts and stories from which we can draw a profound and vivid spiritual picture, the author asks how can the Prophet's life remain -- or become again -- an example, a model, and an inspiration? And how can Muslims move from formalism -- a fixation on ritual -- toward a committed

spiritual and social presence? In this thoughtful and engaging biography, Ramadan offers Muslims a new understanding of Muhammad's life and he introduces non-Muslims not just to the story of the Prophet, but to the spiritual and ethical riches of Islam. SCOTT (Copy 1): From the John Holmes Library Collection. Christopher Hitchens, described in the London Observer as "one of the most prolific, as well as brilliant, journalists of our time" takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell's *Why I Am Not a Christian* and Sam Harris's recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope's awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix. "The clash of civilizations" has become a common phrase in discussions of U.S.-Middle East relations. This book explores the nature of the friction between the Muslim world and Western states, looking at legitimate perceptions and grievances on both sides involving historical, political, economic, cultural, psychological, and strategic elements. Arguing that "Islam versus the West" does not represent the arena of the next global ideological struggle, the authors examine specific issues of a bilateral nature that require careful handling to prevent the consolidation of states into opposing blocs. They discuss Islam's efforts to politically enhance the real power of Muslim states and to equalize relations with the West in the strategic arena; the enlarged role of Islam in the internal politics of Muslim countries; and the urgency of political, economic, and social change to break away from traditional authoritarian orders. A central theme of the book is that political Islam threatens the established order in most Muslim countries far more than it threatens the West and that violent confrontation can best be circumvented by integrating Islamist forces into the political process. A riveting investigation of the jagged fault line between the Christian and Muslim worlds The tenth parallel—the line of latitude seven hundred miles north of the equator—is a geographical and ideological front line where Christianity and Islam collide. More than half of the world's 1.3 billion Muslims live along the tenth parallel; so do sixty percent of the world's 2 billion Christians. Here, in the buzzing megacities and swarming jungles of Africa and Asia, is where the two religions meet; their encounter is shaping the future of each faith, and of whole societies as well. An award-winning investigative journalist and

poet, Eliza Griswold has spent the past seven years traveling between the equator and the tenth parallel: in Nigeria, the Sudan, and Somalia, and in Indonesia, Malaysia, and the Philippines. The stories she tells in *The Tenth Parallel* show us that religious conflicts are also conflicts about land, water, oil, and other natural resources, and that local and tribal issues are often shaped by religious ideas. Above all, she makes clear that, for the people she writes about, one's sense of God is shaped by one's place on earth; along the tenth parallel, faith is geographic and demographic. An urgent examination of the relationship between faith and worldly power, *The Tenth Parallel* is an essential work about the conflicts over religion, nationhood and natural resources that will remake the world in the years to come.

Graham E. Fuller brings a lifetime of experience in the Muslim world to shed light on how common, even universal, political behavior takes on a distinctively Islamic guise in the Muslim world. By examining the social, economic and political context, he explains that the struggle between the fundamentalists and liberals will determine the future of political Islam. This sweeping survey of trends in the Muslim world, from Morocco to the Philippines, explores the diversity of Islamic political activity and makes clear that Islamic political movements represent a broad spectrum of outlook and behavior. Whether traditional or liberal, these movements have become an important vehicle for the concerns, aspirations and grievances of vast numbers of Muslims worldwide and are a natural outgrowth of Muslim history. Fuller contends that while political Islam is the dominant intellectual current, a focus on radicalism and extremism blinds us from another trend: liberal political Islam. The issues are not what is Islam, but what Muslims want, and not whether Islam will play a central role in politics, but which Islam. As Islam has become the vocabulary for political and social expression, it has come to serve various agendas.

Artikler om praktisering af islamisk familieret i Mellemøsten, Europa, Syd- og Sydøstasien samt Kina. This book will reshape the way we think about Islam's relationship with the West. What if Islam never existed? To some, it's a comforting thought: no clash of civilizations, no holy wars, no terrorists. Here, political scientist and expert on the Muslim world Graham E. Fuller guides us through history, geopolitics, and religion to investigate whether or not Islam is indeed the cause of some of today's most emotional and important international crises. Fuller takes us from the birth of Islam to the fall of Rome to the rise and collapse of the Ottoman Empire. He examines and analyzes the roots of terrorism, the conflict in Israel, and the role of Islam in supporting and energizing the anti-imperial struggle. Provocatively, he finds that contrary to the claims of many politicians, thinkers, theologians, and soldiers, a world without Islam might

not look vastly different from what we know today.--From publisher description. Vivid, dramatic portraits of Muslims in America in the years after 9/11, as they define themselves in a religious subculture torn between moderation and extremism. There are as many as six million Muslims in the United States today. Islam (together with Christianity and Judaism) is now an American faith, and the challenges Muslims face as they reconcile their intense and demanding faith with our chaotic and permissive society are recognizable to all of us. From West Virginia to northern Idaho, American Islam takes readers into Muslim homes, mosques, and private gatherings to introduce a population of striking variety. The central characters range from a charismatic black imam schooled in the militancy of the Nation of Islam to the daughter of an Indian immigrant family whose feminist views divided her father's mosque in West Virginia. Here are lives in conflict, reflecting in different ways the turmoil affecting the religion worldwide. An intricate mixture of ideologies and cultures, American Muslims include immigrants and native born, black and white converts, those who are well integrated into the larger society and those who are alienated and extreme in their political views. Even as many American Muslims succeed in material terms and enrich our society, Islam is enmeshed in controversy in the United States, as thousands of American Muslims have been investigated and interrogated in the wake of 9/11. American Islam is an intimate and vivid group portrait of American Muslims in a time of turmoil and promise. This is the book for you if you are serious about communicating the truth of the Gospel to Muslims. It is thorough. It is authoritative. It is written by a third-world Christian whose father was a convert from Islam. It is the contention of the author that an effective evangelistic approach to the adherents of Islam must be based upon a study of Christ as He is found in both Scripture and the Koran. Christ, then, becomes the bridge between the two faiths. Such a search is, to Abdul-Haqq, the natural means of introducing the Savior. Having seen Christ on the pages of the Bible, he moves on to a presentation of the great issues of sin, salvation, and the nature of God as the final pressing points to raise in efforts to win Muslim friends and neighbors to Jesus. In his first book since *What Went Wrong?* Bernard Lewis examines the historical roots of the resentments that dominate the Islamic world today and that are increasingly being expressed in acts of terrorism. He looks at the theological origins of political Islam and takes us through the rise of militant Islam in Iran, Egypt, and Saudi Arabia, examining the impact of radical Wahhabi proselytizing, and Saudi oil money, on the rest of the Islamic world. *The Crisis of Islam* ranges widely through thirteen centuries of history, but in particular it charts the key events of the twentieth

century leading up to the violent confrontations of today: the creation of the state of Israel, the Cold War, the Iranian Revolution, the Soviet defeat in Afghanistan, the Gulf War, and the September 11th attacks on the United States. While hostility toward the West has a long and varied history in the lands of Islam, its current concentration on America is new. So too is the cult of the suicide bomber.

Brilliantly disentangling the crosscurrents of Middle Eastern history from the rhetoric of its manipulators, Bernard Lewis helps us understand the reasons for the increasingly dogmatic rejection of modernity by many in the Muslim world in favor of a return to a sacred past. Based on his George Polk Award–winning article for *The New Yorker*, *The Crisis of Islam* is essential reading for anyone who wants to know what Usama bin Ladin represents and why his murderous message resonates so widely in the Islamic world. "An intelligent, erudite argument in which Mr. Akhtar (whose writings won the praise of Graham Greene and other British authors) challenges his fellow Muslims to bring their faith into the modern world. In the process he offers a clear and concise explanation of Islam's basic religious tenets." A look at the developing conflicts in Christian-Muslim relations during late antiquity and the early Islamic era How did the medieval Middle East transform from a majority-Christian world to a majority-Muslim world, and what role did violence play in this process? *Christian Martyrs under Islam* explains how Christians across the early Islamic caliphate slowly converted to the faith of the Arab conquerors and how small groups of individuals rejected this faith through dramatic acts of resistance, including apostasy and blasphemy. Using previously untapped sources in a range of Middle Eastern languages, Christian Sahner introduces an unknown group of martyrs who were executed at the hands of Muslim officials between the seventh and ninth centuries CE. Found in places as diverse as Syria, Spain, Egypt, and Armenia, they include an alleged descendant of Muhammad who converted to Christianity, high-ranking Christian secretaries of the Muslim state who viciously insulted the Prophet, and the children of mixed marriages between Muslims and Christians. Sahner argues that Christians never experienced systematic persecution under the early caliphs, and indeed, they remained the largest portion of the population in the greater Middle East for centuries after the Arab conquest. Still, episodes of ferocious violence contributed to the spread of Islam within Christian societies, and memories of this bloodshed played a key role in shaping Christian identity in the new Islamic empire. *Christian Martyrs under Islam* examines how violence against Christians ended the age of porous religious boundaries and laid the foundations for more antagonistic Muslim-Christian relations in the centuries to come. A fascinating, accessible introduction

to Islam from the #1 New York Times bestselling author of *Zealot* and host of *Believer* FINALIST FOR THE GUARDIAN FIRST BOOK AWARD *No god but God*, internationally acclaimed scholar Reza Aslan explains Islam—the origins and evolution of the faith—in all its beauty and complexity. This updated edition addresses the events of the past decade, analyzing how they have influenced Islam’s position in modern culture. Aslan explores what the popular demonstrations pushing for democracy in the Middle East mean for the future of Islam in the region, how the Internet and social media have affected Islam’s evolution, and how the war on terror has altered the geopolitical balance of power in the Middle East. He also provides an update on the contemporary Muslim women’s movement, a discussion of the controversy over veiling in Europe, an in-depth history of Jihadism, and a look at how Muslims living in North America and Europe are changing the face of Islam. Timely and persuasive, *No god but God* is an elegantly written account that explains this magnificent yet misunderstood faith. Praise for *No god but God* “Grippingly narrated and thoughtfully examined . . . a literate, accessible introduction to Islam.”—The New York Times “[Reza] Aslan offers an invaluable introduction to the forces that have shaped Islam [in this] eloquent, erudite paean to Islam in all of its complicated glory.”—Los Angeles Times Book Review “Wise and passionate . . . an incisive, scholarly primer in Muslim history and an engaging personal exploration.”—The New York Times Book Review “Acutely perceptive . . . For many troubled Muslims, this book will feel like a revelation, an opening up of knowledge too long buried.”—The Independent (U.K.) “Thoroughly engaging and excellently written . . . While [Aslan] might claim to be a mere scholar of the Islamic Reformation, he is also one of its most articulate advocates.”—The Oregonian

The concept of 'scripture' as written religious text is re-examined, considering orally distributed sacred writings. Introduction to the ancient Near East, Mediterranean and Europe, including the Greco-Roman world, Late Antiquity and the early Muslim period. The Challenge of Islam to Christians is David Pawson's most important - and most controversial - prophetic message to date. Moral decline and erosion of a sense of ultimate truth has created a spiritual vacuum in the United Kingdom. David Pawson believes Islam is far better equipped than the Church to move into that gap and it will not be long before it becomes the country's dominant religion. Based on the audio and video recordings on which he first announced his message, this book unpacks and explains the background behind Pawson's claims, and - crucially - sets out a positive blueprint for the Church's response. Christians must rediscover and demonstrate to society the three qualities that make Christianity unique: Reality,

Relationship and Righteousness. From Miroslav Volf, one of the world's foremost Christian theologians—and co-teacher, along with Tony Blair, of a groundbreaking Yale University course on faith and globalization—comes *Allah*, a timely and provocative argument for a new pluralism between Muslims and Christians. In a penetrating exploration of every side of the issue, from New York Times headlines on terrorism to passages in the Koran and excerpts from the Gospels, Volf makes an unprecedented argument for effecting a unified understanding between Islam and Christianity. In the tradition of Seyyed Hossein Nasr's *Islam in the Modern World*, Volf's *Allah* is essential reading for students of the evolving political science of the twenty-first century. The Kurds, one of the oldest ethnic groups in the Middle East, are reasserting their identity—politically and through violence. Divided mainly among Turkey, Iran, Iraq, and Syria, the Kurds have posed increasingly sharp challenges to all of these states in their quest for greater autonomy if not outright independence. Turkey's essentially democratic structure and civil society\_ideal tools for coping with and incorporating minority challenge\_have so far been suspended on this issue, which the government is treating almost exclusively as a security problem to be dealt with by force. For the West the situation in Turkey is particularly significant because of the country's importance in the region and because of the economic, political, and diplomatic damage that the conflict has caused. If Turkey fails to find a peaceful solution within its current borders, then the outlook is grim for ethnic and separatist challenges elsewhere in the region. This study explores the roots, dimensions, character, and evolution of the problem, offers a range of approaches to a resolution of the conflict, and draws broader parallels between the Kurdish question and other separatist movements worldwide. An examination into the intersection of Malcolm X's Muslim spiritual life and his Christian relations Despite his association with the Nation of Islam, Malcolm X had an intimate relation with Christianity and Christians, which influenced his personal life and spirituality as well as his career. Lou DeCaro's *Malcolm and the Cross* thoroughly explores the relation between Malcolm, the Nation of Islam, and Christianity. After revealing the religious roots of the Nation of Islam in relation to Christianity, DeCaro examines Malcolm's development and contributions as an activist, journalist, orator, and revolutionist against the backdrop of his familial religious heritage. In the process, DeCaro achieves nothing less than a radical rethinking of the way we understand Malcolm X, depicting him as a religious revolutionist whose analysis of Christianity is indispensable--particularly in an era when cultic Islam, Christianity, and traditional Islam continue to represent key factors in any discussion about racism in the United

States. In systematic descriptions, three of today's leading scholars detail the classical theologies of Judaism, Christianity, and Islam, and the authoritative texts of those theologies. They compare and contrast the three faiths, each of which has a set of doctrines, practices, and beliefs that addresses common issues. Two former Sunni Muslims, now Christian theology professors, explain the beliefs, customs, ethics, and practices of Islam. What if Islam never existed? To some, it's a comforting thought: no clash of civilizations, no holy wars, no terrorists. But what if that weren't the case at all? In *A World Without Islam*, Graham E. Fuller guides us along an illuminating journey through history, geopolitics, and religion to investigate whether or not Islam is indeed the cause of some of today's most emotional and important international crises. Fuller takes us from the birth of Islam to the fall of Rome to the rise and collapse of the Ottoman Empire. He examines and analyzes the roots of terrorism, the conflict in Israel, and the role of Islam in supporting and energizing the anti-imperial struggle. Provocatively, he finds that contrary to the claims of many politicians, thinkers, theologians, and soldiers, a world without Islam might not look vastly different from what we know today. Filled with fascinating details and counterintuitive conclusions, *A World Without Islam* is certain to inspire debate and reshape the way we think about Islam's relationship with the West.

An introduction to the Qur'an (Koran), a text that has guided the lives of millions. *Order and Exclusion* is a rare and magnificent book of medieval history with clear relevance to today's headlines. Through the lens of the polemics of Peter the Venerable, abbot of Cluny, Dominique Iogna-Prat examines the process by which christianity transformed itself into Christendom, a powerful spiritual, social, and political system with pretensions to universality. Iogna-Prat's close examination of a set of writings central to the history of Catholicism resolves into a deeply troubling study of the origins of attitudes that continue to shape world events. Iogna-Prat writes that "versions of fundamentalism nourished by the soil of an often terrible common history" show that Christianity, Judaism, and Islam have all been capable of intolerance. Peter the Venerable's writings had a far-reaching impact: the powerful network of Clunaic houses expanded from the founding of the original monastery of Cluny to dominate Christendom by the twelfth century. This Christendom, Iogna-Prat demonstrates, defined itself in part through its increasingly bitter struggles against its perceived enemies both within and without. Peter the Venerable's all-pervasive logic pitted the "order" of the monastery and its hierarchical society against all those--heretics, Jews, Muslims, lepers--outside its bounds. In his proclamations against Jews and Muslims, Peter devised a Christian anthropology: in his view, to be non-Christian was to be non-human. The power of

the Church came at a great and lasting price. William A Graham, a leading international scholar in the field of Islamic Studies, gathers together his selected writings under three sections: 1. History and Interpretation of Islamic Religion; 2. The Qur'an as Scripture, and 3. Scripture in the History of Religion. Each section opens with a new introduction by Graham, and a bibliography of his works is included. Graham's work in Islamic studies focuses largely on the analysis and interpretation of the religious dimensions of ritual action, scriptural piety, textual authority/revelation, tradition, and major concepts, such as grace and transcendence. His work in the comparative history of religion has focused in particular on the 'problem' of scripture as a cross-cultural religious phenomenon that is more complex than simply 'sacred text'. This invaluable resource will be of primary interest to students of the Islamic tradition, especially as regards Qur'anic piety, Muslim 'ritual' practice, and fundamental structures of Islamic thought, and to students of the comparative history of religion, especially as regards the phenomenon of 'scripture' and its analogs. \*Selected as a Most Anticipated Book of Fall by The Globe and Mail and The Toronto Star\* \*A Chatelaine Fall Best Books Selection\* “A necessary meditation on the richness and multiplicity of Islamic history and practice.” —Desmond Cole, author of *The Skin We're In* “Explore[s] Islam's deep roots in himself and the Americas and crafting a striking portrait of both.” —Maclean's “[A] fascinating...almost infallibly instructive read.” —The Wall Street Journal An insightful and perspective-shifting new book, from a celebrated journalist, about reclaiming identity and revealing the surprising history of the Muslim diaspora in the west—from the establishment of Canada's first mosque through to the long-lasting effects of 9/11 and the devastating Quebec City mosque shooting. Discover the book that is sparking conversation from Brazil to Canada's icy North. “Until recently, Muslim identity was imposed on me. But I feel different about my religious heritage in the era of ISIS and Trumpism, Rohingya and Uyghur genocides, ethnonationalism and misinformation. I'm compelled to reclaim the thing that makes me a target. I've begun to examine Islam closely with an eye for how it has shaped my values, politics, and connection to my roots. No doubt, Islam has a place within me. But do I have a place within it?” Omar Mouallem grew up in a Muslim household, but always questioned the role of Islam in his life. As an adult, he used his voice to criticize what he saw as the harms of organized religion. But none of that changed the way others saw him. Now, as a father, he fears the challenges his children will no doubt face as Western nations become increasingly nativist and hostile toward their heritage. In *Praying to the West*, Mouallem explores the unknown history of Islam across the Americas, traveling to thirteen

unique mosques in search of an answer to how this religion has survived and thrived so far from the place of its origin. From California to Quebec, and from Brazil to Canada's icy north, he meets the members of fascinating communities, all of whom provide different perspectives on what it means to be Muslim. Along this journey he comes to understand that Islam has played a fascinating role in how the Americas were shaped—from industrialization to the changing winds of politics. And he also discovers that there may be a place for Islam in his own life, particularly as a father, even if he will never be a true believer. Original, insightful, and beautifully told, *Praying to the West* reveals a secret history of home and the struggle for belonging taking place in towns and cities across the Americas, and points to a better, more inclusive future for everyone. This timely work explores how, after a long period of isolation, Turkey is becoming a major player in Middle Eastern politics once again. In fact, by acting independently and attempting to reconcile its constitutionally secular form of governance and vibrant traditional culture, it is now for the first time becoming positively viewed by others in the Muslim world as a state worth watching and maybe even emulating. As a result, Turkey's dynamic political scene and new search for independence in its foreign policy, however complicating or irritating for the United States today, will nonetheless ultimately serve the best interests of Turkey, the Middle East, and even the West. Drawing heavily on a range of Turkish and Western sources, this multidimensional, lively, and nuanced volume provides an excellent introduction to one of the region's most fascinating and complex countries and makes a highly valuable contribution to the current debate about Turkey and its place in the world." Many non-Muslims have no idea that Muslims worship the same God as Christians and Jews, and that Islam preaches compassion, charity, humility, and the brotherhood of man. And the similarities don't end there. According to Islamic teaching, Muhammad founded Islam in 610 CE after the angel Gabriel appeared to him at Mecca and told him that God had entered him among the ranks of such great biblical prophets as Abraham, Moses, and Christ. Whether you live or work alongside Muslims and want to relate to them better, or you simply want to gain a better understanding of the world's second largest religion, *Islam For Dummies* can help you make sense of this religion and its appeal. Before offering a prayer at the inauguration of President George W. Bush, Franklin Graham was asked by a fellow participant if he intended to pray in the name of Jesus Christ. Graham assured him that he would and encouraged this pastor to do the same. As Graham reminded him, "That's the only thing we've got." In days of religious confusion and cultural relativism, Franklin Graham reminds us that there are absolutes in the kingdom of God. The Name explains the significance of names in the Hebrew culture, centering on the meaningfulness of the name Jesus. Chapters focus on the different aspects of power in the Lord's name, such as "Healing in the Name" and "Salvation in the Name." The essays and case studies collected here—featuring some of the best material from Middle East Report over the past decade as well as much original material—challenge the facile generalizations about what Western media and political establishments usually call "Islamic fundamentalism." The authors demonstrate the complexity of these movements and offer complementary and contrasting interpretations of their origins and significance. The material included covers a broad range of themes—including democracy and civil society, gender relations and popular culture—as they have emerged in countries throughout the Middle East and North Africa. The Final Chapter From Billy Graham While his earthly vision dims, the glory of heaven is illuminated as Billy Graham, the beloved evangelist, shares from his past, and his present, the reality of eternity. Although Billy Graham may no longer preach from the stadiums of the world, in this book you will sense his heart still beats strong with the resounding assurance that he will spend eternity with Jesus Christ, the Savior of the world. In Where I Am, Mr. Graham invites and strongly encourages all of us to contemplate our eternal hope. When asked, "Where is Heaven?" Mr. Graham has wisely replied, "Heaven is

where Jesus Christ is, and I'm going to Him soon." The greatest promise ever given to the human race came from the lips of our Redeemer when Jesus said, "Let not your heart be troubled; you believe in God, believe also in Me...I go to prepare a place for you...I will come again and receive you to Myself; that where I am, there you may be also" (John 14:1-3). Just after his ninety-fifth birthday, Mr. Graham proclaimed with resolve, "When I die, tell others that I've gone to my Lord and Savior Jesus Christ—that's where I am." Flap Copy: As our nation and world travail in the midst of political, economic, and cultural uncertainties, we can find comfort in the hope that comes from the unchanging truth of God's Word. Whether talking with a US president, a world leader, or the common man or being interviewed on network television, Billy Graham has always begun his answers with "The Bible says..." In *Where I Am*, Mr. Graham shares what the Bible has to say about eternity from all of its sixty-six books; messages of truth, warning, love, and the certainty of the future, all gleaned by a man who would like to be remembered solely as a preacher of the Gospel of Jesus Christ. Each short chapter examines the reality that each of us chooses where to spend life after death: Heaven or Hell. From the Old Testament writer who composed "Show me Your ways, O Lord" (Psalm 25:4) to the New Testament writer who penned the words of Jesus, "Whoever believes in [Me] should not perish" (John 3:16), there is hope for anyone who puts his or her faith and trust in the One who gives us the promise, "Where I am, there you may be also" (14:3). "The Way of the Strangers is an intimate journey into the minds of the Islamic State's true believers. From the streets of Cairo to the mosques of London, Wood interviews supporters, recruiters, and sympathizers of the group...Wood speaks with non-Islamic State Muslim scholars and jihadists, and explores the group's idiosyncratic, coherent approach to Islam...Through character study and analysis, Wood provides a clear-eyed look at a movement that has inspired so many people to abandon or uproot their families. More than a conventional biography, Grant Wacker's interpretive study deepens our understanding of why Billy Graham has mattered so much to so many, and how his uncanny ability to appropriate trends in the wider culture allowed him to transform his born-again theology into a moral vocabulary capturing the aspirations and fears of average Americans. Same-sex relations, transvestism and cross-gender behaviour have long been noted amongst a wide range of Indonesian peoples. This book explores dominant theories of gender and sexuality in relation to gender diversity in Indonesia. It discusses in particular intersexed groups, such as 'calalai', 'calabai' and 'bissu'.
