In this story of the colonial frontier, a brother and sister--too Indian to be trusted by the English, too English to know the ways of the Indians-- search for each other after being separated by an Indian prince and his war. "Reading When God Happens is like receiving an intravenous dose of hope in a world parched by hopelessness. It will remind you not just to hope for miracles but to expect them."—Melanie Hemry, Guideposts magazine writer and author of fifty-four books "A powerful read."—Dimas Salaberrios, author of Street God "True stories like these require those who don't believe in angels ... to explain the unexplainable."—Cal Thomas, syndicated columnist A car flips over on the highway and bursts into flames. A father hears devastating news about his unborn child. A teenage girl follows a friend to a dangerous party. Then God happens. If you have ever doubted the miraculous power of God, prepare to be astonished. Here, real people share true stories of modern-day miracles—moments of divine intervention when the hand of God was briefly and beautifully revealed. Edited by bestselling authors Angela Hunt and Bill Myers, the eight stories in When God Happens include first-hand accounts of medical healing, angelic visitation, and demonic possession. As Hunt and Myers write, these testimonies "are a reminder that the God who reached down to touch those He loved in Bible days has not changed. He has not turned His back on us or left us to our own devices. As Scripture also states, '[He] is the same yesterday, today, and forever.' " We pray these stories inspire you to look to God for the deepest needs in your life as you discover how He has worked in the lives of others just like you. Three little trees stood and dreamed of what they wanted to become when they grew up. Three children, the sole survivors of the Roanoke massacre. Fallon, the oldest, made a solemn pledge to protect his younger charges at all costs. Among America's coastal icons, the Cape Hatteras Lighthouse ranks at the very top, alongside the Statue of Liberty and the Golden Gate Bridge. The other two are in major metropolitan areas. The lighthouse is on a fragile, 50-mile-long, two-thirds-of-a-mile-wide island 30 miles out to sea. Those who visit Hatteras understand they're decidedly in the ocean and only marginally on land. For a remote patch of real estate with a year-round population of little more than 3,000, Hatteras has witnessed extraordinary history. It may have been the destination of the Lost Colony. Blackbeard likely hobnobbed with the locals. The Monitor went to its watery grave nearby.

Radio towers on the island made history's first transmission of music and received the distress call from the Titanic. Billy Mitchell proved the ascendancy of air power by sinking a pair of mothballed battleships offshore. Bodies washed up on the beach following U-boat attacks during World War II. The surfmen at the island's lifesaving stations made some of the most heroic rescues ever. But Hatteras Island: Keeper of the Outer Banks is more than a history. It is rather, as author Ray McAllister says, "a conversation with an island." It tells of a vacation paradise that can change instantly into a storm center, of a resort island kept largely free of development-but hardly of controversy-by a national seashore park. It tells of the hardy few who brave the Hatteras winters, those who come to catch record-sized fish from the piers, those who travel disaster-prone Highway 12 and who drove the bare sand before it, those who stood and watched as a 208-foot lighthouse was moved half a mile. "Pull up a chair," McAllister says. "Have a listen." Roanoke is part of the lore of early America, the colony that disappeared. Many Americans know of Sir Walter Raleigh's ill-fated expedition, but few know about the Algonquian peoples who were the island's inhabitants. The Head in Edward Nugent's Hand examines Raleigh's plan to create an English empire in the New World but also the attempts of native peoples to make sense of the newcomers who threatened to transform their world in frightening ways. Beginning his narrative well before Raleigh's arrival, Michael Leroy Oberg looks closely at the Indians who first encountered the colonists. The English intruded into a well-established Native American world at Roanoke, led by Wingina, the weroance, or leader, of the Algonquian peoples on the island. Oberg also pays close attention to how the weroance and his people understood the arrival of the English: we watch as Wingina's brother first boards Raleigh's ship, and we listen in as Wingina receives the report of its arrival. Driving the narrative is the leader's ultimate fate: Wingina is decapitated by one of Raleigh's men in the summer of 1586. When the story of Roanoke is recast in an effort to understand how and why an Algonquian weroance was murdered, and with what consequences, we arrive at a more nuanced and sophisticated understanding of what happened during this, the dawn of English settlement in America. Could Rachele's father really be an Indian? All her life, Rachele Bailie has believed that her father was an English clergyman killed in an Indian attack. But her mother now confesses to Rachele that her father, Mojac Bailie, still lives--and that Indian blood courses through his veins. "Find your father," her mother pleads from her deathbed. Intrigued by the story and desperate to understand the truth, Rachele agrees. In her quest to locate Mojac, she boards a ship bound for Boston, but the ship is attacked by the dread pirate Bettencourt. Finding herself face-to-face with the notorious renegade, Rachele does the unthinkable . . . and finds herself caught up in an adventure beyond her wildest imagining. The final book in the Keepers of the Ring series continues with breathless adventures based on historical facts. Interweaving two captivating stories of romance and intrigue, humor and faith, The Emerald Isle wraps up the multi-colored threads of Angela Elwell Hunt's The Heirs of Cahira O'Connor series in a page-turning conclusion that will satisfy both spirit and heart. Resisting her confining, traditional role as a king's daughter, fiery-spirited Cahira O'Connor dreams of practicing her bow, not of capturing a husband. But when Norman invaders challenge the borders of the Kingdom of Connacht, Cahira finds both the one man who could win her heart and an irresistible calling to fight for the land and people she loves. To Kathleen O'Connor, the story of Cahira's deathbed vow was nothing more than a legend, until her research revealed that it was true. Now, in Ireland for the wedding of her best friend Taylor and his fiancée, Maddie O'Neil, Kathleen struggles to fit in at the O'Neils' farm, Ballyshannon, and focus on her research into the life of her ancestor Cahira. There among Ireland's emerald hills, Kathleen finds far more than she could ever have dreamed—including her own unexpected destiny as an heir of Cahira O'Connor. Winner of the 2016 B&N Discover Great New Writers Award for Fiction In *The Lightkeepers*, we follow Miranda, a nature photographer who travels to the Farallon Islands, an exotic and dangerous archipelago off the coast of California, for a one-year residency capturing the landscape. Her only companions are the scientists studying there, odd and quirky refugees from the mainland living in rustic conditions; they document the fish populations around the island, the bold trio of sharks called the Sisters that hunt the surrounding waters, and the overwhelming bird population who, at times, create the need to wear hard hats as protection from their attacks. Shortly after her arrival, Miranda is assaulted by one of the inhabitants of the islands. A few days later, her assailant is found dead, perhaps the result of an accident. As the novel unfolds, Miranda gives witness to the natural wonders of this special place as she grapples with what has happened to her and deepens her connection (and her suspicions) to her companions, while falling under the thrall of the legends of the place nicknamed ""the Islands of the Dead."" And when more violence occurs, each member of this strange community falls under suspicion. In 1587, a group of would-be colonists set sail from England and later landed on Roanoke Island, now part of North Carolina's outer banks. "And you found it, this thing you were looking for?" It was darker now, and the city below Faustino's office was a jazzy dance of neon signs and traffic. The big man went to the window and looked down at it all, spreading his large hands on the glass. "No," he said. "It found me." When Paul Faustino of LA NACION flips on his tape recorder for an exclusive interview with El Gato — the phenomenal goalkeeper who single-handedly brought his team the World Cup — the seasoned reporter quickly learns that this will be no ordinary story. Instead, the legendary El Gato ("The Cat") quietly narrates a spellbinding tale that begins in a mythic corner of the South American rain forest, where a ghostly but very real mentor, the Keeper, emerges to teach the gangly boy the most thrilling secrets of the game. Combining vivid imagery and heart-stopping action, this evocative, strikingly ethereal novel about loyalty, passion, and magic will haunt readers, regardless of their love for soccer, long after the story is ended.
